Notice to readers

This English-version annual report is a summary translation of the Chinese version and is not an official document of the shareholders' meeting. If there is any discrepancy between the English and Chinese versions, the Chinese version shall prevail.

I. The names, titles, telephone numbers and email addresses of the Spokesperson and Deputy Spokesperson:

Name of spokesperson: Chi,Ping-Hsin TEL: 0966-214560/(86)535-2292508

Title: General Manager

Name of acting spokesperson: Chen, Wen-Ling

Title: Acting spokesperson

E-mail: IR@strongh.cn

TEL: (886)3-3198016

E-mail: IR@strongh.cn

II. Name, designation, contact number, and e-mail of litigation/non-contentious case agents in the Republic of China:

Name of representative: Chi, Tao-Song

Title: Manager of the Company's Taiwan Branch

TEL: (886)3-3198016 E-mail: strongh@strongh.tw

III. Address and contact number of head office, branches, subsidiaries and 2nd-tier subsidiaries:

(I) Head office (branch):

Name: Strong H Machinery Technology (Cayman) Incorporation

Website:http://www.strongh.tw

Address:4th Floor, Harbour Place, 103 South Church Street, P.O. Box 10240, Grand

Cayman KY1-1002, Cayman Islands

TEL:(86)535-2292508

Branch: Strong H Machinery Technology (Cayman) Incorporation Taiwan Branch

Address: No. 89, Jianguo East Road, Guishan District, Taoyuan City

TEL:(886)3-3198016

(II) Subsidiary and 2nd-tier subsidiary:

Name: Faith Light International Corporation (Samoa)

Address: Vistra Corporate Services Centre, Ground Floor NPF Building, Beach Road,

Apia, Samoa

TEL:(86)535-2292508

Name: VANDEN INTERNATIONAL CO .,LTD.(Samoa)

Address: Vistra Corporate Services Centre, Ground Floor NPF Building, Beach Road,

Apia, Samoa TEL:(86)535-2292508

Name: Strong H Machinery Technology Co., Ltd.

Address: No. 2099, Kaiming Road, Development Zone, Laizhou City, Shandong Province, China

TEL: (86)535-2292508

Name: Grand Strong Precision Machines Co., Ltd.

Address: Qiancheng Community, Shangma Street, Chengyang District, Qingdao City, Shandong Province,

China

TEL: (86)532-87920085

IV. Name, address, website, and contact number of share administration agency:

Name: Shareholder Service Department of Fubon Securities Co., Ltd. Website: http://www.fubon.com Address: 11F, No. 17, Xuchang Street, Zhongzheng District, Taipei City TEL: (886)2-23611300

V. The CPA's name and the accounting firm's name, address, telephone number and website for the most recent financial report:

Name of financial statement auditor: CPA Chuang, Wen-Yuan, CPA Yang, Ching-Cheng

Accounting firm: Deloitte Taiwan Website: http://www.deloitte.com.tw

Address: 20F, No. 100, Songren Road, Xinyi District, Taipei City TEL: (886)2-27259988

VI. Name of overseas exchange where securities are listed, and methods for inquiring foreign-listed securities: Not applicable.

Profitability analysis	Net Profit Rate (%)		8.63	5.82	48.28
Sis	EPS After Tax		2.04	1.06	92.45

(IV) Status of research and development

The RD investments in 2024 amounted to NT\$84,446 thousand; NT\$12,151 thousand decrease than that of 2023 at NT\$72,295 thousand. Research and development expenses increase due to investment in new product research and development such as automation devices and automation equipment and the promotion of automation production transformation and upgrading.

Our automatic devices and equipment are developed to help customers enhance the production efficiency of sewing equipment, reduce labor, and lower production costs.

II. Summary of 2025 Business Plan

(I) Policy

- 1. The company gradually accumulates R&D and innovative technical capabilities through product technology research and development; the company is gradually becoming an R&D and innovation-oriented company with smart equipment prioritized as the main product.
- 2. In terms of the production system, the company is gradually becoming a manufacturing factory that is smart, automation, and information-oriented.
- 3. The company's business operation focuses on sewing machine knives and special knives; it is also dedicated to developing abrasive automation equipment. Development of

- automatic sewing equipment, exploration of new materials and expansion of product field in investment casting from our product roadmap.
- 4. The corporate management system is with a people-oriented business model established and a talent cultivation mechanism planned.
- 5. Cost control as the current corporate strategy.
- (II) Expected sales volume and its basis

The company has not disclosed financial forecasts, so there is no expected sales volume. (III)Marketing policy

- 1. Through the company to implement lean production management mode, equipment automation, technology standardization, information, talent cultivation system, so as to achieve the cost control, the purpose of sustainable development of enterprises.
- 2. The Company has successfully automated the production of equipment, integrated manpower, equipment, and process, achieved the goal of compressing the production cycle, and stabilized the quality of production, to ensure timely deliveries.
- 3. Corporate information management: The Company's main product delivery is based on the market product order delivery, and the integration of big data such as MES, PLM, BI, QMS, etc., to achieve the Company's rapid product delivery capability.
- 4. The Company primarily manufactures sewing machine cutting tools while also developing cross-industry cutting tools and automated sewing production equipment. Development focuses on multi-machine labor-saving systems for single sequences and automated multi-sequence sewing machines, helping customers implement human-machine separation and machine substitution improvements.
- 5. Setup a supplier management system (price management, payables management, standardized management of material procurement), and establish a systematic management platform for market information management, production management, production planning management, material management, and logistics management.
- 6. Establish an international marketing model to help the company move forward from localization to international marketing.

III. Future development strategy

We market products in our own brand "STRONG H," one of the leading brands of parts for industrial sewing machines.

- (I) The following is the main development strategy of the product side:
 - 1 Automated devices: The company's recent flagship products feature time-saving, labor-saving, and process-reducing characteristics. These devices upgrade garment factory production lines with add-on attachments that increase manual efficiency and production capacity. Through standardized technical management and continuous performance improvements, the company is expanding its rigid demand product categories to surpass benchmarks and establish market leadership. Following the development philosophy of saving time and labor for customers, the company continues to develop equipment with automated attachments while promoting previously developed products in the market to generate volume sales and build market reputation. The Company will optimize and upgrade the performance structure of old products, and make them more user-friendly and useful, so that end users will recognize and trust the Company's products and brands, and continue to maintain its leading position in the market.
 - 2 Automated equipmen: In 2025, the company continues to design and manufacture automated equipment that supports single-machine or multi-machine processes operated by one person. Product features include automatic material collection, time savings, and labor reduction, providing peripheral sewing equipment production lines to end-user garment factories to reduce workforce requirements and production costs. Future development will focus on sewing production lines formed by combining

single-sequence or multi-sequence automated sewing units, establishing strategic partnerships with garment factories to design specialized sewing equipment or automated production lines for specific products. The company will refine and strengthen previously developed products, emphasizing knitted hem and cuff ribbing processes, to establish an initial brand effect for knitted automation products.

The Company has been steadily accumulating technology and experience in the development and sale of automatic sewing machine products, and has demonstrated the advantages of product upgrades in the current development. Focusing on sweatshirt and crew neck seaming, the company is developing extended automated equipment to gradually form production lines of automated equipment for sweatshirts and crew neck shirts. Continue to expand the overseas market and invest in the overseas formation of automated brand influence and reputation..

- 3 Potential products (leather cutters, leather skiving knives, new materials of alloy, trading goods and products of investment casing):
 - (1) For potential products, the Company researched the market demand, established the promotion program, and set up the sales strategy. The new products of materials for investment casting (stainless steel and alloy materials) had positive impact on revenues.
 - (2) The Company developed new materials, applied new technologies to make continuous improvement in product performance. The useful life of the knives was increased by the new techniques with expansion in alloy, tungsten steel, aluminum, and other new materials. •
 - (3) Enhance the processing capacity of new business, extend the development, upgrade the processing equipment for new materials, improve the product tolerance and quality stability. Accumulated experience and business growth in the commercial vehicle engine parts business Development of aluminum parts for garden machinery blades °
 - (4) The Company emphasizes securing and developing new products, focusing on embroidery machine sequin/bead device cutting tools, fabric cutting blades, and CAD cutting knives to develop new products and customers, increasing market share and sales revenue. The Company will continue to develop sewing machine products by taking advantage of the lack of distribution channels in the industry, and form a series of products to improve customer dependence and sales volume. °
- (II) The Company's future development strategies
 - 1. Strong H continues to promote information construction, build smart and digital smart manufacturing, and build high-efficiency, high-quality, and low-cost smart manufacturing systems.
 - 2. Through the MES system, combined with automation and intelligent equipment renovation and lean project promotion, we have built a comprehensive, timely and transparent production model for system integration and data collection to ensure orderly and stable production.
 - Through the APS system and MES, ERP, PLM and other systems, from the planning to the machine and the team, the production can be effectively balanced according to the available resources. Through the end-to-end supply plan, we can meet the customer's delivery date and reduce the manufacturing cost and inventory.
 - Through the QMS system, a management model for the whole process of traceability of quality data and analysis and optimization is established; a quality traceability chain is constructed for comprehensive analysis to achieve total quality control.

IV. It is affected by external competition environment, legal environment and overall operating

Environment

(I) Influence of external competitive environment

The Company has been deeply rooted in the sewing machine parts industry for over 30 years, continuously optimizing production technology and moving toward more automated and intelligent factory management. Through professional manufacturing services, we have established long-term partnerships with world-leading brands, earning customer recognition and trust.. With the "STRONG H" self-owned brand and marketing worldwide, the company has a certain brand awareness. The Company optimized the distribution channel management, expanded secondary dealers and periodically held regional product launch to let our wideranging partners catch up with our products. The Company strengthened the communication with our partners, expanded end-market of our products and increased the market share of component products, device products and other components of sewing machines.

(II) Environmental impact of regulations

The company is registered in the Cayman Islands. By the end of 2024 the companies of the Group are registered and operated in Samoa, Mainland China and Taiwan. The business of each company of the Group is carried out in accordance with the important policies and laws and regulations of the country and region where it is located, and it pays attention to the important policy development trend and legal changes at any time. When necessary, it consults the relevant units such as lawyers and accountants, or commissions them to evaluate and plan corresponding measures, and takes appropriate countermeasures according to the changes in the market environment.

(III) The impact of the overall operating environment

The industry has recovered from the pandemic in 2024. Many important indicators have shown significant growth, and the industry's production and sales scale have recovered quickly, which has led to significant improvement in corporate quality. In 2024, the global economy will maintain a slow recovery trend, and inflation pressure will be significantly reduced. The U.S., Europe, and other developed economies will successively cut interest rates, and the consumption momentum and the inventory demand will gradually be released. China has successively introduced a package of policies to stabilize the economy and expand domestic demand. Expectations for development in consumption, investment, and production are gradually improving, creating favorable internal and external conditions for the steady development, transformation, and upgrading of the sewing machinery industry. Looking ahead to 2025, based on industry economic and inventory cycle patterns, after experiencing two consecutive years of downturn, the industry welcomed cyclical growth momentum in 2024 with signs of bottoming out and recovery. The foundation for economic stabilization and recovery has been strengthened, with concentrated results from product intelligence upgrades becoming evident. As the economy in emerging markets recovers , inflation in Europe and the US gradually subsides, and the domestic and foreign service and consumer conditions continue to improve, the internal and external environment faced by the industry will improve. It is expected that production and sales within China's sewing machine industry will maintain a significant growth in 2025 under the dual momentum of the recovery of economic consumption demand and the release of inventory. Looking forward to 2025, as China continues to implement supportive national policies, consumer confidence gradually recovers, and new retail models in the apparel industry stimulate market vitality, China's clothing industry is expected to experience a warming trend and growth. We anticipate maintaining stable revenue and profit growth.

Future With product leadership, technological innovation, quality brand competitiveness continues to enhance, smart manufacturing and digital level continues to improve, the Company is looking forward to becoming a world-class supplier of sewing components and integration solutions for sewing equipment.

Chairperson: Chi, Ping-Hsin CEO: Chi, Ping-Hsin CFO: Huang, Deak-Hueiei

An independent director who is in compliance with the criteria for independence, not a director, supervisor, or employee of the Company or its affiliates; including but not limited to the person himself/herself, spouses or second-degree relatives; not holding shares of the Company; not serving as a director, supervisor or an employee of a company with which the Company has a specific relationship; not having received any remuneration for commercial, legal, financial and accounting services provided by the Company or its affiliates in the past two years.	1
Tsai, Jia-Peir	Have relevant industry experience required for the company's business. With experience and expertise in mechanical engineering and manufacturing, be able to provide technical advice when necessary. Not under any circumstances as stipulated in Article 30 of the Company Act.	An independent director who is in compliance with the criteria for independence, not a director, supervisor, or employee of the Company or its affiliates; including but not limited to the person himself/herself, spouses or second-degree relatives; not holding shares of the Company; not serving as a director, supervisor or an employee of a company with which the Company has a specific relationship; not having received any remuneration for commercial, legal, financial and accounting services provided by the Company or its affiliates in the past two years.	0

Note 1: Professional qualifications and experience: Specify the professional qualifications and experience of individual directors and supervisors. If the person is a member of the Audit Committee with accounting or financial expertise, their accounting or financial background and work experience shall be specified; while stating whether it meets the circumstances provided in Article 30 of the Company Act.

Note 2: For independent directors, their state of independence must be specified, including but not limited to whether they, their spouses, second-degree relatives serve as a director, supervisor or employer in the Company or affiliates; the proportion of shares held by the independent director himself/herself, their spouses or second-degree relatives (or in the name of others); whether the independent director serves as a director, supervisor or an employee of a company with which the Company has a specific relationship (refer to Subparagraphs 5 to 8, Paragraph 1, Article 3 of the Regulations Governing Appointment of Independent Directors and Compliance Matters for Public Companies); and amount of remuneration receive for commercial, legal, financial and accounting services provided by the Company or its affiliates in the past two years.

5. Diversity and Independence of the Board:

(1) Board diversification: Specify the Board's diversity policy, objectives and achievements. The diversity policy includes but is not limited to director selection criteria, the professionalism expected of directors; their qualifications and experience, gender, age, nationality and culture as well as the composition or proportion of the Board; and describe the company's specific goals and their achievements based on the policy disclosed above.

At Strong H, we advocate and respect the director diversity policy to strengthen corporate governance while promoting the robust development of the composition and structure of the Board of Directors. We firmly believe that the diversity policy helps enhance the performance of the Company as a whole. Election of Board Members. The appointment of board members are based on the principle of using talent; the criteria have been

divided into the following:

- A · Basic conditions and values: Gender, age, nationality, culture, etc.
- B Professional knowledge and skills: Professional background (such as legal, accounting, industry, finance, marketing or technology), professional skills and industry, experience, etc.

In a bid to strengthen the functions of the Board to achieve the corporate governance objectives, as stipulated in Article 20 of the Company's "Corporate Governance", the Board of Directors as a whole shall have the following functions:

- A. The ability to make judgments about operations.
- B. Accounting and financial analysis ability.
- C. Business management ability.
- D. Crisis management ability.
- E. Knowledge of the industry.
- F. An international market perspective.
- G. Leadership ability.
- H. Decision-making ability.

(2) Management targets and achievement status:

Management targets	Achievement status

Tsai, Jia-Peir	Male	Taiwan, R.O.C			$\sqrt{}$		$\sqrt{}$		$\sqrt{}$		$\sqrt{}$			$\sqrt{}$	$\sqrt{}$

To sum up, the Company's current Board is made up by 7 directors, including 3 directors and 4 independent directors. Directors who also serve as employees of the Company account for 43% while independent directors account for 57%; 14% are female directors, and 4 independent directors have a term of office of 3-10 years.

The expertise of our Board members lies in accounting, management and the Company's industry. Each director and independent director has their respective professionalism in different areas. The 3 directors specialize in business management, leadership in decision-making, accounting with extensive industry knowledge and international market perspective; while other 4 independent directors are experts in accounting, taxation, laws and lecturing. These directors are able to bring many benefits to the Company's operations. At present, there is only one female director on the board of directors of the company, which accounts for less than one third. Based on the gender equality of the composition of the Board of Directors, the diversity of age groups and professional backgrounds, the company will continue to consider increasing the proportion of gender diversity of the Board of Directors in the future.

(3) Independence of the Board of Directors: The number and proportion of independent directors must be specified; explain the independence of the Board of Directors; with details whether matters stated in Subparagraphs 3-4, Article 26-3 of the Securities and Exchange Act; with a description provided where there is a spouse or second degree of kinship between directors or supervisors or between directors and supervisors. The Company 4th Board of Directors is composed of 7 members and 4 of which are independent directors. The goal is to have no less than 3 independent directors and no less than 1/5 (inclusive) of the total number of directors. In 2024, there were 4 independent directors, accounting for 57% of all director seats. The goal for directors working as the Company's part-time employees may not exceed 1/2 (inclusive) of the total number of directors. There are currently 3 directors who are part-time employees, accounting for 43% of all director seats. Directors in the Board must be more than half and they must not be spouses or within second-degree relatives. At presents, only 2 directors are second-degree relatives for 29% of all director seats. In summary, the goals for independence have been achieved.

Note: The Company delivered consolidated net income of NT\$72,104 thousand in 2023 and NT\$138,677 thousand in 2024.

2. Remuneration policies, standards, packages and procedures, and association with future risks and business performance

(1) Directors:

The remuneration of the directors shall not exceed 3% of the profits of the current year in accordance with Article 102 of the Articles of Association. Directors' remuneration is reviewed by the Remuneration Committee and submitted to the Board meeting for approval and reported to the Shareholders' meeting. The distribution of directors' remuneration is determined by taking into account the degree of participation of the individual in the Company's operations, the risks they take and their degree of contribution to the Company.

(2) President and vice president:

In accordance with Article 102 of the Articles of Association, the Company shall pay employees at a rate of not less than 1% of the annual profit. Performance assessments and remuneration levels of the Company's managerial officers (including the president and vice president) shall take into account the general pay levels in the industry, the time spent by the individual and their responsibilities, and the extent of goal achievement. The annual salary adjustment and year-end bonus are determined in accordance with the Company's policy for the year and the performance bonus is based on the Company's profitability for the year and the performance of the individual. The Remuneration Committee submits their recommendations to the Board meeting for discussion and approval.

(3) Correlation between the operational performance and future risk exposure:

We have established a Remuneration Committee to pay remuneration to directors and managerial officers (including president and vice president). Remuneration is determined by the Remuneration Committee based on the individual's education and experience, the general pay levels in the industry, the individual's degree of contribution to the Company and operational performance, while taking into account the operational risks, transaction risks and financial risks that the Company may face in the future and in accordance with the relevant management regulations. The Remuneration Committee shall meet at least once a year to review the performance assessment of the directors and managerial officers as well as the remuneration policy, system, standards and structure of the remuneration. The Remuneration Committee shall assess and determine remuneration for directors and managerial officers and propose recommendations on assessment results, which are submitted to the Board meeting for discussion. Therefore, there are no significant future risks.

III. Status of corporate governance

(I) Functionality of the board of directors

The board of directors held 5 meetings (A) by 2024 and up till the publication date of annual report. Attendance records are as follows:

C.The composition and structure of the board of directors	7	4.80
D.Selection and further education of directors	7	4.69
E.Internal control	7	4.82
Total/Average score	45	4.75 (Excellent)

2. Performance evaluation of the directors3

2. I chomistice evaluation of the directors		
Six self-evaluation aspects	Number of questions	Average score
A.Grasp of the company's goals and tasks	3	4.81
B.Director's recognition of responsibilities	3	4.86
C.The degree of involvement in the company's operations	8	4.71
D.Internal relationship management and communication	3	4.86
E.Professional and further education of the directors	3	4.81
F.Internal control	3	4.81
Total/Average score	23	4.79 (Excellent)

3. Performance evaluation of the Audit Committee:

Five self-evaluation aspects	Number of questions	Average score
A.The degree of involvement in the company's operations	4	5.00
B.Recognition of the responsibilities of functional committees	5	4.90
C.Improving decision-making quality of the functional committees	7	4.86
Five self-evaluation aspects	Number of questions	Average score
D.The composition and selection of the functional committees	3	5.00
E.Internal control	3	5.00
Total/Average score	24	4.93 (Excellent)

4. Performance evaluation of the Remuneration Committee:

Four self-evaluation aspects	Number of questions	Average score
A.The degree of involvement in the company's operations	4	5.00
B.Recognition of the responsibilities of functional committees	5	4.90
C.Improving decision-making quality of the functional	7	4.89
committees		
D.The composition and selection of the functional committees	3	5.00
Total/Average score	19	4.93 (Excellent)

(III) Conclusions:

1 · Analysis of the overall evaluation for 2024 compared to 2023

Internal performance evaluation	2023 Average score	2022 Average score	Increase and decrease percentage between the two periods
Performance evaluation of the board of directors	4.75	4.63	2.59%
Performance evaluation of the directors	4.79	4.70	1.91%
Performance evaluation of the Audit Committee	4.93	4.83	2.07%
Performance evaluation of the Remuneration Committee	4.93	4.79	2.92%

As can be seen from the above table, the overall average scores in 2024 are higher than those in 2023 •

- 2. The performance evaluation result for the Company's 2024 Board of Directors and functional committees is rated between the range of 4 points "Excellent (agree)" and 5points "Good (highly agree)". The various rating indicators on the operations of the directors and functional committees are "Good". This indicates that the Company's board of directors and functional committees are operating well as a whole, meeting the requirements of corporate governance, and effectively strengthening the functions of directors and protecting shareholders' rights and interests.
- IV. Enhancements to the functionality of the board of directors in the current and the most recent year (e.g. establishment of an Audit Committee, improvement of information transparency etc), and the progress of such enhancements:
 - 1 The Company has established Audit Committee and Remuneration Committee on February 25, 2015 per resolution by the Board of Directors, to fulfill the functioning of corporate governance.
 - 2 · To enhance information transparency, the Company has assigned a spokesperson and a deputy spokesperson for external communication.
 - Relevant information is disclosed at the Company's official website and websites designated by competent authorities, to enhance information transparency.
 - 3 To enhance the directors' competence in corporate governance, the Company arranges curricula for ongoing training of directors each year according to the Directives for Implementation of Continuing Education for Directors and Supervisors of TWSE/TPEx Listed Companies.

Both the 7 incumbent directors have completed more than six hours of training in 2024, respectively.

(II) Functionality of the Audit Committee

remuneration and nomination of directors with the results? (IV) Will the Company have the independence of the public accountant evaluated regularly?	<		individual directors against themselves or their peers after the end of each year. The evaluation results are disclosed on the Company website. The results of the 2024 performance review were completed in the first quarter of 2025 and reported on March 6, 2025 Board of Directors. (IV) Financial statement auditors have been instructed to disassociate themselves from tasks that pose direct or indirect conflict with their own interests. Furthermore, financial statement auditors' independence is evaluated by the board of directors on a regular basis. In addition to obtaining a letter from an accountant stating that members of the audit team have not violated their independence, the Company also conducts the assessment in accordance with the independence assessment standards of accountants and the audit quality index reports provided by accounting firms. The assessment found no violation of relevant laws and regulations such as the Certified Public Accountant Act on independence. No circumstances of unsuitability for the appointment was identified either. Note 1 shows the CPA independence assessment in 2024.	
IV. Does a public company deploy sufficient quantity of eligible governance personnel and appoint a governance supervisor to take charge of company's governance affairs (including, without limitation, providing directors and supervisors with the data required for business operations, assisting directors and supervisors with legal compliance, handling affairs in relation to holding a BOD meeting or a general meeting of shareholders, processing company registration and change registration, and keeping minutes for BOD meetings and general meetings of shareholders)?	*		The Company has on May 9, 2023, subject to approval by the Board of Directors, established the position of Chief Corporate Governance Officer to protect the rights and interests of shareholders and strengthen the functions of the Board of Directors. The person has more than three years' experience in finance, shareholders service or parliamentary management of a public company. The main responsibilities of the Corporate Governance Officer include handling matters related to board of directors' meetings and shareholders' meetings according to the laws, preparing meeting minutes of the board of directors' meetings and shareholders' meetings, assisting assumption of office and continuing education of directors, providing documents necessary for the directors to perform their duties and assisting directors in legal compliance, etc. Please refer to Note 2 for details of the continuing education status for 2024.	
V. Has the Company provided proper communication channels and created dedicated sections on its website to address corporate social responsibility issues that are of significant concern to stakeholders (including but not limited to shareholders, employees, customers and suppliers)? VI. Has the company appointed a professional	*		A "Stakeholder" section has been set up on the Company's website. We also have a spokesperson and acting spokesperson in place responsible for matters associated with external relations and stakeholders. Our contact means are available on both MOPS and company website to respond to important CSR issues concerned by stakeholders. The Company commissions the Shareholder Service	·
shareholders service agent to process the affairs related to shareholders' meetings? VII. Information disclosure			Department of Fubon Securities Co., Ltd. to handle matters relating to shareholder meetings.	- material noncomorning
(I) Has the company established a website that discloses financial, business, and corporate governance-related information?	✓		(I) Financial and corporate governance information is disclosed on the Company's website (http://www.strongh.tw). We also have dedicated personnel to be responsible for information	
(II) Has the company adopted other means to disclose information (e.g. English website, assignment of dedicated personnel to collect and disclose corporate information, implementation of a spokesperson system, broadcasting of investor conferences via the company website)? (III) Does the company publish and declare its	✓	√	disclosure on MOPS and company website. (II) The Company has set up dedicated personnel to be in charge of company information collection and disclosure. As required by the regulations, we have a spokesperson and acting spokesperson, and organize an investor conference on a regular basis or from time to time. Moreover, we release operational and financial information in both English and Chinese. By doing so, we enhance the transparency of company information.	Assessment on early

the end of a fiscal year, and publish and declare in advance the financial statements of Q1, Q2, and Q3 and status of monthly operations?			financial statements, the first/second/third quarter financial statements and monthly operations before deadlines.	
operations? VIII. Does the company have other information that enables a better understanding of the company's corporate governance practices (including but not limited to employee rights, employee care, investor relations, supplier relations, stakeholders' interests, continuing education of directors/supervisors, implementation of risk management policies and risk measurements, implementation of customer policy, and insuring against liabilities of company directors and supervisors)?	>		 (I) The Company recruits employees without discrimination, whether in terms of gender, ethnicity or nationality, and is committed to protecting employees' rights and providing good working environment. For employee rights, benefits and care, please refer to V. Labor-Management Relations on p. 70-71 of this Annual Report (II) The Company uses contracts to outline rights and obligations with its suppliers and customers. (III) With respect to investor relations and protection of stakeholders' rights, the Company maintains open communication at all times and implements a spokesperson system to disclose public information and protect investors and stakeholders in the utmost integrity. (IV) All of the Company's directors possess relevant professional knowledge and are subjected to ongoing education. Note 3 shows the status of further education in the last year. (V) Avoidance of directors' involvement in conflicting interest discussions has been outlined in the Company's Board of Directors Conference Rules. These requirements will be duly enforced in the future. (VI) Risk management policies, practices, and risk assessment standards: The Company has established internal policies and performs risk management and evaluation accordingly. (VII) Customer policy: The Company has established credit management practices and internal control procedures to regulate transactions with customers. (VIII) Insurance against directors' and supervisors' liabilities: The Company has insured itself against the liabilities of all its directors. No supervisor is present within the Company. 	

IX. Please state the corrective actions already taken and also propose the matters to be improved as the first priority and countermeasures against them, based on the corporate governance evaluation results released by the Corporate Governance Center of TWSE in the most recent year. (Not required if the Company is not one of the evaluated subjects):

(I) Improved status

Regarding the improvement of the transparency of company information and the disclosure of corporate governance information, in addition to the announcement in accordance with the norms of the competent authorities, the information that needs to be disclosed in the company's annual report and the company's website has been disclosed

(II) Issues to be improved as the priority and enhancement measures

The Company will continuously evaluate the feasibility of future improvement for projects that fail to meet the requirements of the corporate governance evaluation indicators, and plan to adopt a gradual approach to meet the requirements of the corporate governance indicators based on the evaluation results, so as to improve corporate governance and protect the interests of investors.

Note 1: CPAs' independence assessment criteria in 2024.

(1) Assessment according to the Audit Quality Indicators (AQIs):

(1) Assessment according	to the Audit Quality Indicators (AQIS) .		
AQI indicators	Measurement focus	Assessment outcome	Whether or not the criterion is satisfied
Aspect 1: Professionalism			
1. Audit experience	Whether or not the senior auditor is equipped with adequate audit experience to perform audit works.	Yes	Criterion satisfied

(IV) Describe the composition, duties and operations of the remuneration committee:

1. Information on Members of Remuneration Committee

Identity	Qualification Name	Professional qualifications and experience	Compliance of independence (Note)	Number of public companies where the person holds the title as a member of Remuneration Committee
Independent Director	Wang, Ching- Hsiang (Convener)	Has working experience in accounting and crisis management and has obtained a certificate of a national examination required for working as a professional and technician at an accounting firm. Currently servicing as the director of Yangtze CPAs and Co. For information on directors and supervisors, please refer to p.5~7 of this Annual Report.	An independent director who is in compliance with the criteria for independence, not a director, supervisor, or employee of the Company or its affiliates; including but not limited to the person himself/herself, spouses or second-degree relatives; not holding shares of the Company; not holding shares of the Company; not serving as a director, supervisor or an employee of a company with which the Company has a specific relationship; not having received any remuneration for commercial, legal, financial and accounting services provided by the Company or its affiliates in the past two years.	0
Independent Director	Wang, Chien_Chih	a certificate of a national examination required for working as a professional and technician at a law firm. For information on directors and	An independent director who is in compliance with the criteria for independence, not a director, supervisor,	1
Independent Director	Tai, Kuo- Cheng	the Department of Mechanical and Computer-Aided Engineering at Feng Chia University. For information on directors and	An independent director who is in compliance with the criteria for independence, not a director, supervisor, or employee of the Company or its affiliates; including but not limited to the person himself/herself, spouses or second-degree relatives; not holding shares of the Company; not holding shares of the Company; not serving as a director, supervisor or an employee of a company with which the Company has a specific relationship; not having received any remuneration for commercial, legal, financial and accounting services provided by the Company or its affiliates in the past two years.	0
Independent Director	Tsai, Jia-Peir	company's business • For information on directors and	An independent director who is in compliance with the criteria for independence, not a director, supervisor, or employee of the Company or its affiliates; including but not limited to the person himself/herself, spouses or second-degree relatives; not holding shares of the Company; not holding shares of the Company; not serving as a director, supervisor or an employee of a company with which the Company has a specific relationship; not having received any remuneration for commercial, legal, financial and accounting services provided by the Company or its affiliates in the past two years.	0

Note: Compliance of the criteria for independence: Note 2: For independent directors, their state of independence must be specified, including but not limited to whether they, their spouses, second-degree relatives serve as a director, supervisor or employer in the Company or affiliates; the proportion of shares held by the independent director himself/herself, their spouses or second-degree relatives (or in the name of others); whether the independent director serves as a director, supervisor or an employee of a company with which the Company has a specific relationship (refer to Subparagraphs 5 to 8, Paragraph 1, Article 6 of the Regulations Governing the Appointment and Exercise of Powers by the Remuneration Committee of a Company Whose Stock is Listed on the Taiwan Stock Exchange or the Taipei Exchange); and amount of remuneration receive for commercial, legal, financial and accounting services provided by the Company or its affiliates in the past two years.

2. Responsibilities of the Remuneration Committee

The Remuneration Committee shall exercise the care of a prudent manager to fulfill the following duties, and offer recommendations for discussion by the board of directors:

- (1) Regular review of Remuneration Committee foundation principles and recommendation of changes.
- (2) Establish and review regularly the annual and long-term performance targets outlined for the Company's directors and managers, and the policies, systems, standards, and structures of their remuneration.
- (3) Evaluate on a regular basis the accomplishment of performance targets by the Company's directors and managers, and determine the details and amounts of individual compensation.

3. Functionality of the Remuneration Committee

- (1) The Remuneration Committee of the Company is consisted of 4 persons.
- (2) Terms of the current board: From April 21, 2022 to April 20, 2025. The Remuneration Committee held 3 meetings (A) in the last year (2024). Details of members' eligibility and attendance are shown below:

Job title	Name	Actual attendance (B)	Attendance by proxy	Actual attendance rate (%) (B/A) (Note)	Remarks
Convener	Wang, Ching- Hsiang	3	_	100.00	2022/4/21 re-election
Member	Tai, Kuo-Cheng	3	_	100.00	2022/4/21 re-election
Member	Wang, Chien- Chih	3		100.00	2022/4/21 re-election
Member	Tsai, Jia-Peir	3	_	100.00	2022/4/21 new appointment

The proposal content, resolution results, and the company's handling of the opinions proposed by the Remuneration

Committee members in the most recent year (2023):

Remuneration Committee meeting date	Term	Proposal content	Resolution result	The opinions of the Remuneration Committee members handled by the company
2024/3/7	7th meeting of the 4 rd term	Motion for 2023 distribution of remuneration to directors and employees.	Passed by all members present unanimously	N/A
2024/8/22	8th meeting	Proposal for distribution of 2023 director remuneration	Passed by all members present unanimously	N/A
2024/0/22	of the 4 rd term	Proposal for distribution of 2023 employees remuneration	Passed by all members present unanimously	N/A
2024/12/26	9th meeting of the	Review of policies, system, standards and structures of performance assessment and remuneration for directors, independent directs and managers	Passed by all members present unanimously	N/A
2024/12/26 of the 4rd term		Proposal for the standards of the Company's issuance of 2024 year-end bonuses to managers	Passed by all members present unanimously	N/A

Other notes:

In the event where the Remuneration Committee's proposal is rejected or amended in a board of directors meeting, please describe the date and session of the meeting, details of the topics discussed, the board's resolution, and how the company had handled the Remuneration Committee's proposals (describe the differences and reasons, if any, should the board of directors approve a solution that was more favorable than the one proposed by the Salary and Remuneration Committee): None.

I. Should any member object or express qualified opinions to the resolution made by the Remuneration Committee, whether on-record or in writing please describe the date and session of the meeting, details of the motion, the entire members' opinions, and how their opinions were addressed. None.

(V) Implementation of sustainable development promotion and difference from the Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies and reasons thereof

			Implementation	Difference from the Sustainable
Promotion	,,	.,		Development Best Practice Principles for TWSE/TPEx Listed
	Yes	No	Summary	Companies and reasons thereof
I.Has the company constructed a governance structure to promote sustainable development and established a dedicated (part-time) unit for the promotion of sustainable development, which is managed by senior management by authorization of the Board of Directors and is supervised by the Board of Directors?	✓		1. The Company has established the "Sustainable Development Best Practice Principles" as the standard for the Company's promotion of sustainable development-related works. 2. At present, the promotion of sustainable development is carried out by the head of corporate governance, who works with various departments to fulfill the relevant responsibilities of sustainable development according to the scope of their duties. If there are any social responsibility issues, report them to the board of directors when necessary and follow the instructions of the competent authority. Relevant regulations and implementation of various publicity matters 3. The Company has established the greenhouse gas (GHG) inventory and verification schedule plan and has reported to the board of directors on May 11, 2022. In addition, relevant implementation status will also be reported to the board of directors on a quarterly basis. 4. Sustainable development implementation status is reported to the board of directors once annually. The most recent date of	No material inconsistency.
			reporting to the board of directors was December 26, 2024.	
II. Did the company assess the risk of environmental, social, and governance (ESG) issues in relation to company operations based on the materiality principles and establish policies or strategies in relation to risk management?	*		1. The information disclosed by the Company in 2024 covers the sustainable development performance of its major subsubsidiary The boundary of risk assessment includes Strong H (Laizhou) and Hao Qiang (Qingdao). 2. According to the rules of the internal control system, the Company takes precautionary measures to reduce losses brought by risks. Potential risks that may impact the Company's ability in achieving goals are identified, assessed, handled and monitored. These risks are incorporated into the daily operations of each unit. 3. The Company conducts relevant risk assessment on important issues based on the Sustainability Materiality Principle. After assessment, following risk management policies or strategies have formulated targeting these risks: Please refer to Note 1	No material inconsistency.
III Environmental issues (I) Does the company have an appropriate environmental management system established in accordance with its industrial characteristics?	\ \		(I) The Company's Administrative Department has specialists assigned to maintain and enforce safety and health of the work environment. The Company also adopts the following environmental policies: 1. The design department is required to comply with ROHS when choosing materials. 2. The Company enforces a green supplier policy and inspects suppliers' production facilities for hazardous substances on a regular basis. 3. Suppliers that fail to meet requirements will have eligibility revoked. 4. Products that violate ROHS are properly isolated and monitored. In addition, to fulfill environmental protection responsibility, to improve operating performance and to implement environmental protection responsibilities with the establishment of the appropriate environmental management system, relevant certifications have been acquired, including: 1. ISO 14001:2015 environmental management system: Certified plant STRONG H site (Laizhou) Date of first acquisition 2022/2/17 Expiration date 2028/2/16 2. Pollutant discharge permit: Issued by Environment and Ecology Bureau, Yantai City, Shandong Province, rigorously fulfill pollution control

VI If the company has established own corporate social responsibility guidelines in accordance with the "Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies", please state the current Sustainable Development practice and any deviations from the "Best Practice Principles" We have established and implemented our own "Sustainable Development Best Practice Principles" without material inconsistency from the Best Practice Principles..

- VII. Other important information that helps understand the implementation of sustainable development::
- (I) The Company supports community activities and is actively involved in neighborhood programs.
- (II) The Company has communication channels that employees may utilize to express opinions. In addition, meetings are convened from time to time to gather opinions from personnel of all levels and departments.
- (III) The Company pays social insurance premiums (which covers healthcare, childbirth, pension, work injury and unemployment benefits) and housing provident funds for employees according to national regulations. The portions borne between the Company and individual employees are split according to relevant rules.
- (IV) The Company organizes internal courses as a form of on-job training; employees may also be subsidized for external training if deemed necessary

Note 1: Our company discloses in the sustainability report the greenhouse gas emissions, water consumption and total weight of waste that we have independently calculated over the past two years, and explains policies for reducing

greenhouse gas emissions, reducing water consumption or other waste management..:

Oriented towards	Risk project	Strategy/Response Measures
o , , al Wi	Supply chain disruption	1 · Adopt supply from more than two suppliers to diversify procurement risks and reduce costs; For materials with high commonality, a second source management mechanism is established; Safety stocks have been established for the main materials to prevent risks caused by material shortages or quality issues. 2 · Short-term risk: In response to short-term impacts (such as foreseeable important national holidays), prepare materials in advance, place orders and handle incoming materials. In response to the risk of short-term supply chain disruptions caused by abnormal weather conditions (such as typhoons and earthquakes), suppliers are required to change their transportation methods depending on the impact situation, in order to ensure that the materials can be supplied to the production line on schedule and meet the demand of customers for on-time delivery. 3 · Medium-term risk: For special specification materials, conduct alternative material assessment and introduction, and have a high degree of control over the price, quality and delivery time of the materials. 4 · Long-term risk: For the identification of high-risk suppliers, audits and time-limited improvements are required to reduce the risk to medium and low
		levels. 1. Improve the management system and manage intellectual property
		systematically. 2 · Continuously enhance the concept of intellectual property protection among all departments and employees.
Corporate governance aspect	Trade secrets/intellectual property rights	 3 · Properly handle infringement allegations from third parties to reduce the company's expenditures and risks. 4 · Regularly review the internal operation norms and relevant contract documents among employees. 5 · Strengthen the information security system to prevent the company's
		information from being stolen and leaked by external hackers or internal employees. 6 • Utilize the classified information classification mechanism and establish control methods to reduce the risk of leakage. 7 • Maintain communication channels with external institutions to keep
		abreast of laws and regulations and industry trends.
		 1 \ Re-examine information security policies, procedures, management measures, etc. 2 \ Strengthen the software and hardware of the information system.
		3 · Carry out inventory of information assets and risk assessment.4 · Business continuity drill operations and various information security
	Information security	operations. 5 \ Regular education and training, and timely inclusion in the updates and requirements of laws and regulations. 6 \ Build and maintain information security intelligence, and adjust and
		strengthen response measures in a timely manner. 7 • Internal audit verification and management review meetings are held annually.
	Product safety	All products of our company are produced and manufactured in accordance with corporate responsibility, in compliance with all laws and regulations, and in compliance with the EU RoHS standards, containing no harmful substances at all. And pass the laboratory test.
Environmental aspect	Greenhouse gas emissions continue to increase	Increased greenhouse gas emissions may lead to legal and policy risks, raise operating costs, damage a company's image, and affect sustainable development goals and market competitiveness.

Oriented towards	Risk project	Strategy/Response Measures
	Unable to save energy effectively	Failure to effectively save energy will lead to an increase in energy costs, waste of resources, and may result in fines from environmental protection regulations, affecting the company's financial situation and sustainable development goals.
Social agreet	Facing a shortage of workers	Labor shortages will lead to poor operation of production lines, rising costs, increased employee pressure, and may even affect customer satisfaction and the overall operational performance of the company.
Social aspect	Occupational accident occurs	Occupational accidents may lead to employee injuries, increased medical expenses, and may trigger legal proceedings, damage the company's reputation, and affect productivity and employee morale.

2 · Describe how the climate risks and opportunities identified affect the business,	Oriented towards	project	Influence period	The financial impact on the company			
strategy and finance (short-term, medium-term, long-term) of the Company.	Transformation Risks - Policy and Regulation	Strengthening emission reporting obligations	Long- term	In response to policies and regulations formulated in response to climate change, companies may face the risk of carbon taxation, which will lead to increased operating costs. Failure to implement inspections and disclosures in accordance with regulations may result in fines and cause financial losses to the company.			
	Transition Risk-Market	Rising raw material costs	Long- term	Extreme weather may lead to a shortage of raw materials, causing suppliers to raise prices. Rising raw material costs will increase the company's operating costs, dilute profits and reduce competitiveness.			
3 \ Describe the impact of extreme climate	Opportunity - Resource Efficiency	Use more efficient production and distribution processes	Long- term	Improving production and distribution efficiency can reduce costs, shorten delivery time, improve product quality and market competitiveness, thereby increasing profits and customer satisfaction, optimizing resource allocation, strengthening supply chain management, and promoting sustainable development of the enterprise.			
event and transformation action on the finance.	Opportunities - Products and	R&D and innovation to develop new products and services	Long- term	 R&D expenditure and capital investment in new alternative technologies will increase production costs. Costs of adopting/building new practices and processes. As demand for existing non-low-carbon products declines, related assets may be at risk of being written off and scrapped prematurely, causing a negative financial impact. 			
	Services	Diversification of business activities	Long- term	Diversification of business activities can help companies diversify climate-related risks, improve market adaptability and competitiveness, open up new sources of revenue, and enhance financial stability, but it may also increase management complexity and resource allocation challenges.			
4 \ Describe how the processes for identifying, assessing and managing climate risks are integrated into the overall risk management system.	 The Sustainability Development Committee members completed the collection of climate and environmental background information and assessed the climate risks within the scope of operations. Establish a list of climate risk opportunity projects and create an internal operational impact questionnaire. Analyze the impact of climate-related risk opportunities and the possible impact period based on the questionnaire, and set implementation strategy goals. In the future, the implementation of ESG risk and climate risk response measures will be reported to the board of directors every year. 						

Item		Execution situation		
5 • If the scenario analysis is used to assess the resilience against the climate change risk, it is necessary to describe the scenario, parameters, assumptions, analysis factors used and the key financial impact.	The Company has	s not yet adopted so	enario analys	is.
	Oriented towards	project	Influence period	Risk and opportunity response management measures
	isk is available, the plan explained and the indicators ntifying and managing	Strengthening emissions reporting obligations	Long- term	1. Continue ISO 14064-1 greenhouse gas self-inspection, control carbon emissions and accelerate the formulation of greenhouse gas emission reduction plans. In the future, we will also consider conducting assessments on the purchase of renewable energy, installation of solar energy-saving equipment, etc., and set carbon reduction targets. We will also conduct energy conservation and carbon reduction promotion and daily implementation for various departments from time to time, actively pay attention to information related to government regulations, and promptly adjust greenhouse gas control operations to meet compliance requirements. 1. Establish cooperative relationships with multiple suppliers to avoid dependence on
6 · If transformation plan for managing climate-related risk is available, the plan content shall be explained and the indicators and goals for identifying and managing		Rising raw material costs	Long- term	a single supplier and build long-term cooperation and mutual trust to gain support and priority treatment from suppliers. 2. Pay close attention to market and industry changes, including raw material price trends and supply conditions, and foresee possible problems in advance. When necessary, sign long-term supply contracts with suppliers to ensure stable supply and prices.
physical risks and transformation risk shall be described.		Use more efficient production and distribution processes	Long- term	 Lean production management: Introduce automation technology, standardized processes and real-time data monitoring to reduce waste, increase production capacity and improve quality control. Smart supply chain optimization: Use data analysis to predict demand, improve inventory management efficiency, establish close working relationships with suppliers, and ensure the rapid circulation of raw materials and products. Digital distribution system: Apply advanced logistics technologies, such as warehouse management systems and transportation management systems, to improve distribution accuracy, shorten delivery time and reduce costs.
	Opportunities - Products and Services	R&D and innovation to develop new products and services	Long- term	1. Continue to reduce product carbon emissions to meet customer emission reduction requirements, 2. Improve product bargaining power or increase order volume, thereby increasing sales revenue. We allocate a research and development budget from our revenue every year and continue to invest in the research and development of high-performance, low-carbon, and environmentally friendly products.

Item	Execution situation
	Diversification of business activities 1. Risk management and monitoring: Establish a climate risk assessment mechanism, regularly monitor market changes, predict the financial and operational risks that may arise from business diversification through data analysis, and formulate response plans. 2. Green investment and innovation: Invest in low-carbon technology and sustainable product development, optimize energy efficiency, ensure that new businesses comply with the requirements of Climate-related Financial Disclosure (TCFD), and enhance market competitiveness and brand value. 3. Ensure that the diversification of business activities complies with environmental responsibilities and regulatory requirements.
7 · If the internal carbon pricing is used as a planning tool, it is necessary to explain the price establishment basis.	Internal carbon pricing has not yet been implemented.
8 · If the climate-related goal has been set up, it is necessary to describe the information of activity covered, greenhouse gas emissions scope, plan schedule, annual achievement progress, etc. If carbon offset or renewable energy certificates (RECs) are used to achieve relevant goals, it is necessary to explain the carbon reduction source and quantity for the offset or the quantity of renewable energy certificates (RECs).	1. Add the official website, ESG digital platform and public information observation station to disclose the results of greenhouse gas category 1~2 inventory. 2. Greenhouse gas reduction target: Achieve 1% reduction each yea. 3. Compared to the base year 2024: - Reduce Scope 1 and Scope 2 greenhouse gas emissions by 25% by 2030 - Reduce Scope 1 and Scope 2 greenhouse gas emissions by 50% by 2040 4. Complete the parent company's emissions inventory in 2026 (inspection year: 2025), and complete the consolidated company's emissions inventory in 2027 (inspection year: 2026) 5. Complete the parent company verification (confirmation) in 2028 (verification year: 2027), and complete the merger company verification (confirmation) in 2029 (verification year: 2028) 6. Currently no carbon offsets or renewable energy certificates (RECs) are used to offset carbon credits.
9 • Please describe the GHG inventory and assurance status and reduction goal, strategy and specific action plan in 1-1 and 1-2.	As shown in the table below.

1-1 GHG inventory and assurance status of the Company in the most recent two years

1-1-1 GHG inventory information

Describe the emission volume (tons CO2e) and density (tons CO2e/NTD million) of GHG in the most recent years and the scope of data coverage.

Note: The Company's data for 2023 and 2024 are as follows. (The Company currently discloses voluntarily)

Category		2023	2024			
Category 1	Total emissions (metric tons CO2e)	Intensity (metric tons CO2e/million yuan)	Total emissions (metric tons CO2e)	Intensity (metric tons CO2e/million yuan)		
Group	608.8083	0.4910	536.1268	0.3336		
Category 2	Total emissions (metric tons CO2e)	Intensity (metric tons CO2e/million yuan)	Total emissions (metric tons CO2e)	Intensity (metric tons CO2e/million yuan)		
Group	7,911.1914	6.3807	9,344.5427	5.8139		

Note: The annual group turnover for fiscal year 2023 is NT\$1,239.857 million; the annual group turnover for fiscal year 2024 is NT\$1,607.273 million.

1-1-2 GHG assurance information

Describe the assurance status in the most recent two years up to the printing date of the annual report, including the assurance scope, institution, standards and opinions.

Note: The Company conducted its own inventory in 2023 and 2024 and has not yet been externally verified. We will ensure that the project is completed within the planned period in accordance with the "Sustainable Development Roadmap for OTC Companies" issued by the Financial Supervisory Commission in March 2012.

1-2 GHG reduction goal, strategy and specific action plan

Describe the GHG reduction standard and its data, reduction goal, strategy and specific plan as well as the reduction goal achievement status.

Emissions reduction targets	Strategic action	Plan schedule
Compared to the base year 2024 Reduce Scope 1 and Scope 2 greenhouse gas emissions by 25% by 2030 Reduce Scope 1 and Scope 2 greenhouse gas emissions by 50% by 2040	 Through green procurement, we purchased infrastructure equipment with environmental labels and replaced all refrigeration and air conditioning systems with energy-efficient Class 1 equipment. Implement energy-saving projects for facilities and equipment. Solar energy installation for personal use. 	2024~2040

(VII) Performance in ethical corporate management inconsistency with the "Ethical Corporate Management Best Practice Principles for TWSE/TPEx Listed Companies"

		s (No	te 1)		Inconsistency and Causes of	
Evaluation Item	Yes	No	Sum	mary	Inconsistency from the Ethical Corporate Management Best Practice Principles for TWSE/TPEx Listed Companies	
Establishing ethical corporate management policies and programs Has the company established policies for ethical corporate management approved by the board of directors and stated such policies and practices in its regulations and external documents and in the commitment made by the board of directors and senior management to actively implement such policies?	✓		(I)	We have established the "Ethical Corporate Management Best Practice Principles," implemented ethnical management policies, and disclosed them on the MOPS and company website. We have also requested all directors, managers, senior management, and employees to abide by these principles in all	No material inconsistency.	
(II) Has the company established an assessment mechanism of risk from unethical behavior to regularly analyze and assess business activities with higher risk of involvement in unethical behavior and preventive programs for unethical behaviors containing at least the preventive measures stated in paragraph 2, Article 7 of the "Ethical Corporate Management Best Practice Principles for	✓		(II)	activities. We have established and implemented the "Procedures for Ethical Management and Guidelines for Conduct" and the "Code of Ethical Conduct" to specify the operating procedures, guidelines for conduct, and the penalties and grievance channels of breach.	No material inconsistency.	
TWSE/TPEx-Listed Companies"? (III) Has the company established in the preventive programs the operating procedures for unethical behavior prevention, penalties and grievance systems of breaching the guidelines for conduct, and implemented and periodically review them?	✓		(III)	We have established the "Procedures for Ethical Management and Guidelines for Conduct" to specify related operations. We have also enhanced the education of no acceptance of valuable articles in any form or name for managers and employees to prevent damage on the company's rights and interests because of personal interests.		
II. Implementing ethical corporate management (I) Has the company assessed the ethical records of its counterparts and explicitly included clauses on ethical conduct in transaction contracts?	✓		(I)	All key customers are subject to credit investigation before commencement of business dealing. This practice helps avoid transaction with counterparties that exhibit undesirable record.	No material inconsistency.	
(II) Has the company established a dedicated (concurrent) unit to implement ethical corporate management under BOD and report regularly (as least once a year) to BOD the status of implementation and supervision of the ethical management policy and preventive programs of unethical behavior?	✓		(11)	Presently, the Corporate Governance Officer of the Company concurrently handles relevant matters and assists the board of directors and management to establish and supervise the execution of ethical management policy and prevention plan according to the job duty and scope of each unit, in order to ensure the proper implementation of Ethical Corporate Management Best Practice Principles and to report the implementation status to the board of directors once annually. The date of the most recent reporting to the board of directors was December26, 2024 The Company has an Auditing Office established directly under the board of directors. The Auditing Office conducts regular and random audits each year and reports its findings to the Audit Committee and the board of directors. Corrective		
(III) Has the company established and implemented a policy to prevent conflicts of interests and provided suitable channels for reporting such conflicts?	✓		(III)	actions are taken based on these findings to enforce business integrity.	No material inconsistency.	
(IV) Has the company established an effective accounting system and an internal control system for the internal audit unit to establish related audit programs based on the results of risk assessment of involvement in unethical behavior to audit and	✓		(111)	The Company has Guidelines" and Code of Conduct" governance. "Ethical Behavior "Business Integrity available to provide	No material inconsistency.	
prevent the compliance with the preventive programs of unethical behavior or hire a CPA to perform the audit? (V) Has the company regularly arranged internal and external education and training activities for ethical corporate management?	✓		(IV)	The Company has an accounting system in place to guide the practices of its accounting staff. Internal control measures have been implemented according to laws and the prevailing circumstances, and are audited regularly with reports submitted to the Audit	No material inconsistency.

IV. Strengthening information disclosure (I) Whether the Company has disclosed its rules of ethical corporate management and effect of implementation thereof on its website and MOPS?	√		The Company has established a corporate governance website to disclose the Ethical Corporate Management Best Practice Principles and related financial and corporate governance information.	No material inconsistency.	

V. Where the company may have establish its own business integrity best-practice principles in accordance with the "Ethical Corporate Management Best Practice Principles for TWSE/GTSM-Listed Companies", and shall elaborate the practice of business integrity and the variations from the aforementioned regulation:

The Company has implemented "Business Integrity Code of Conduct" along with 4 independent directors, an internal audit unit and an Audit Committee. No significant violation of business integrity has occurred to date.

(VIII)Other material information helpful for understanding the status of implementation of corporate governance may be disclosed at the same time:

The Company has established a code of corporate governance and related regulations, which have been approved by the Board of Directors, and the relevant contents are uploaded to the Company website: http://www.strongh.tw for the convenience of investors to inquire.

VI. Other information relevant to understanding the Company's business integrity (e.g. reviews of business integrity principles)

The Company has associated its business integrity policy with employee performance evaluation and the human resource policy, and clearly outlined its disciplinary actions and rewards.

The Company will always pay attention to the development of domestic and foreign regulations related to ethical management, and encourage directors, managers and employees to participate in continuing education or training to propose timely improvements and suggestions, in order to enhance the effectiveness of the Company's promotion of ethical management.

(IX) Enforcement of internal control system

1. Declaration of Internal Control System

Strong H Machinery Technology (Cayman) Incorporation

Declaration of Internal Control

Date: March 6, 2025

The following declaration regarding the internal control system of the Company and subsidiaries has been made based on a self-assessment performed in 2024:

- I. The Company and subsidiaries acknowledge and understand that establishment, implementation and maintenance of the internal control system are the responsibility of the board and managers, and that such a system has been implemented within the Company. The Company has the internal control system established to provide a reasonable assurance for the realization of operating effect and efficiency (including profits, performance, and assets safety), the reliability of financial report, and the obedience of relevant regulations.
- II. There are inherent limitations to even the most well-designed internal control system. As such, an effective internal control system can only reasonably assure achievement of the three goals mentioned above. Furthermore, changes in the environment and circumstances may all affect the effectiveness of the internal control system. However, the internal control system of the Company and subsidiaries features a self-monitoring mechanism that rectifies any deficiencies immediately upon discovery.
- III. The Company and subsidiaries evaluate the design and execution of its internal control system based on the criteria specified in "Regulations Governing Establishment of Internal Control Systems by Public Companies" (hereinafter referred to as "The Governing Principles") to determine whether the existing system continues to be effective. The criteria introduced by "The Governing Principles" consisted of five major elements, each representing a different stage of internal control: 1. Control environment, 2. Risk evaluation and response, 3. Procedural control, 4. Information and communication, 5. Supervision. Each element further contains several items. Please refer to the "Governing Rules" for the details of the said items
- IV. The Company and subsidiaries have adopted the abovementioned criteria to validate the effectiveness of its internal control system design and execution.
- V. Based on the assessments described above, the Company and subsidiaries consider the design and execution of its internal control system to be effective as at December 31, 2024 This system (including the supervision and management of subsidiaries) has provided assurance with regards to the Company's and subsidiaries' business results, target accomplishments, reliability, timeliness and transparency of reported financial information, and its compliance with relevant laws.
- VI. This declaration constitutes part of the Company's annual report and prospectus, and shall be disclosed to the public. For any forgery and concealment of the aforementioned information to the public, we will be held responsible by law in accordance with Article 20, Article 32, Article 171 and Article 174 of the Securities and Exchange Act.
- VII. This declaration was approved during the board of directors meeting held on March 6, 2025 all 7 attending directors had concurred with the context of this declaration.

Strong H Machinery Technology (Cayman) Incorporation

Chairman: Chi, Ping-Hsin

President: Chi, Ping-Hsin

2. If the internal control system was reviewed by an external CPA, the result of such review must be disclosed: None

(X) Resolutions reached in the shareholder's meeting or by the board of directors during the most recent year and up to the date of publication of this annual report:

1. Key shareholder meeting resolutions and execution

Item	Time of	Key resolutions and execution progress
No.	meeting	Acknowledgments:
2024 annual general meeting	2024/6/18	 Motion for the Company's 2023 business report and Consolidated financial statements. Execution status: The Company's operating revenue in 2023 was NT\$1,239,857 thousand; net was NT\$72,104 thousand; earnings per common share was NT\$1.06. The motion was acknowledged at the annual general meeting. Motion for the Company's 2023 earnings distribution. Execution status: For the 2023 earnings distribution, shareholders had cash dividends of NT\$40,858 thousand. The motion was acknowledged at the annual general meeting and the distribution was completed on August 28, 2024. Discussions: Passed the motion for the Company appropriates additional paidin capital for cash payment and is opened for discussion. Execution progress: The allocation of NT\$27,239 thousand has been processed in accordance with the resolution and distributed on August 28, 2024. Special motion: None.

2. Major board of directors resolutions

	rectors resolutions
Meeting date	Important Resolution
2024/3/7	 (1) Passed the motion for 2023 distribution of remuneration to directors and employees. (2) Passed the motion for the Company's 2023 Consolidated financial statements and business report. (3) Passed the motion for the Company's 2023 earnings distribution. (4) Passed the motion for the Company appropriates additional paid-in capital for cash payment and is opened for discussion (5) Passed the motion for the Company's 2023 internal control system self-assessment report. (6) Passed the amendment to the "Organizational Rules of the Audit Committee "of the Company. (7) Passed the proposal for credit extension application with the bank to the "Board of Directors Rules of Procedure" of the Company. (8) Proposal for the Convocation of the Company's 2024 Annual General Meeting of Shareholders
2024/5/7	 (1) Passing of the Company's 2024 first quarter consolidated financial statements. (2) Passed the motion for application for a credit facility and endorsement/guarantee for Strong H Machinery Technology (Cayman) Incorporation.
2024/8/22	 (1) Passing of the Company's issuance of 2023 remuneration to directors. (2) Passing of the Company's issuance of 2023 remuneration to employees, (3) Passing of the Company's 2024 second quarter consolidated financial statements. (4) Passed the amendment for credit extension application with the bank. (5) Passed the proposal for credit extension application with the bank. (6) Passed the motion for amendment to the "Internal Control System" of the subsubsidiary, Strong H Mechanical Technology (Laizhou) Co., Ltd. (7) Passed the motion amendment to the "Enforcement Rules for Internal Audit" of the subsubsidiary, Strong H Mechanical Technology (Laizhou) Co., Ltd.
2024/11/7	 (1) Passing of the Company's 2024 third quarter consolidated financial statements (2) Passing of the Company's addition to the "Operating Procedure for Preparation and Assurance of Sustainability Report" of the Company. (3) Approved the motion for amendments to the Company's "Corporate Governance Best Practice Principles."
2024/12/26	(1) Passing of the review of policies, system, standards and structures of performance assessment and remuneration for directors, independent directs and managers.

	(2) Passing of the proposal for the standards of the Company's issuance of 2024 year-end bonuses to managers.
	(3) Passing of the Company's assessment on independence and suitability of external accountants for financial statements.
	(4) Passing of the Company's addition of the "Regulations Governing the Management of Sustainable Information" to the Company's internal control system and addition of the "Enforcement Rules for Internal Audit" to the "Sustainable Information Management."
	(5) Approved the motion for amendments to the Company's "Reporting System Implementation Regulations."
	(6) Approval of the Company's 2025 audit plan.
	(7) Passing of the Company's 2025 business plan and annual budget.
	(1) Approved the company's 2024 distribution of remunerations of directors and employees.
	(2) Approved the company's 2024 Consolidated Financial Statements and Business Report.
	(3) Approved the company's 2024 Earnings Distribution Proposal.
	(4) Approved the company's 2024 internal control system self-evaluation report.
2025/3/6	(5) Approved the company's "Articles of Incorporation".
2023/3/0	(6) Approved the company's motion of election of the entire Board of Directors.
	(7) Approved the company's lift the ban on competition of the new Directors and representatives
	(8) Passed the convening of the company's 2025 annual shareholders' meeting.
	(9) Approved the list of candidates for directors (including independent directors) to be nominated by the board of directors and the independent director qualification review case

(XI) Documented opinions or written declarations made by directors or supervisors against board resolutions: None.

(III) Dividend Policy and the Status of Implementation

- 1. Dividend policy stated in the Company's Articles of Incorporation
 - (1) Without violating the Cayman Islands Companies Act, the Articles of Incorporation or any instructions made during the shareholder meeting, the board of directors may propose cash distribution of dividends and capital reserves to shareholders, subject to resolution during a shareholder meeting. Shareholders may authorize the board of directors to pay dividend or capital reserve in cash from legally available capital.
 - (2) Without violating any laws of The Cayman Islands or any rights vested in shares, the Company shall distribute cash on a particular category of shares or capital reserve according to the Articles of Incorporation based on the number of fully-paid preferred shares and available capital reserves as at the baseline date.
 - (3) Before distributing dividends or capital in cash, the board of directors may retain an appropriate portion as reserves. This reserve can be utilized by the Company for any purpose relating to its business activities.
 - (4) Except otherwise regulated in the Cayman Islands Companies Act, amounts that do not originate from the Company's profits, reserve appropriated from profit, or share premium accounts can not be distributed as dividend or other form of capital.

The Company's dividend policy is as follows:

- A. In the event that the Company's shares are listed on any securities exchange in The Republic of China, any future profits (i.e. pre-tax profit before employee and director remuneration; refers to "Annual Profit" below) shall be subject to provision for employee and director remuneration in the following amounts. However, profits must first be taken to offset against cumulative losses if any.
 - (A) Directors are entitled to remuneration at no more than 3% of "Annual Profit," which can only be paid in cash; and
 - (B) Employees of the Company and subsidiaries are entitled to annual remuneration at no less than 1% of "Annual Profit," which can be paid in cash, shares or any combination of the above.
- B. In the event that the Company's shares are listed on any securities exchange in The Republic of China, any earnings concluded from a financial year shall be distributed after deducting (i) taxation, (ii)

reimbursement of previous loss, (iii) 10% provision for legal reserve ("Legal Reserve") according to laws applicable to public companies, unless the balance of Legal Reserve has accumulated to the paid-up capital, and (iv) special reserves according to the authority of The Republic of China (including but not limited to Financial Supervisory Commission and securities markets of The Republic of China), unless otherwise regulated by the laws of The Cayman Islands. The amount of earnings net of the above deductions shall be referred to as "Current Distributable Earnings" below. Shareholders' dividends and profit-sharing can be paid from Current Distributable Earnings or undistributed earnings carried from previous periods (collectively referred to as "Cumulative Distributable Earnings" below).

- C. The Company may distribute cash dividend and/or shareholder bonus based on future budget and capital requirements to support capital spending, business expansion and growth, even if the decision contradicts any prevailing rules. If a proposal is raised to make distribution out of Cumulative Distributable Earnings, the board of directors shall present a dividend/profit-sharing plan for a general resolution at the meeting of shareholders and meet th\e following requirements:
 - (a) Cumulative Distributable Earnings can be distributed in cash or new shares for shareholders.
 - (b) The total amount of dividend under the plan shall be no less than 10% of the Cumulative Distributable Earnings of the period.
 - c) No interest shall accrue on the undistributed payable dividends or profit sharing.
- 2. The situation of the proposed dividend distribution at the shareholders meeting

The Company's 2024 earnings distribution was approved by the Board of Directors on March 6, 2025, with NT\$1.2 per share for a total cash dividends of NT\$81,716,688. The aforementioned 2024 annual earnings distribution proposal The financial case has not been resolved by the shareholders' meeting as of the publication date of the annual report..

- (IV) Impacts of proposed stock dividends on the Company's business performance and earnings per share

 No public financial forecast was made and no distribution of stock dividend was proposed during shareholder
 meeting in the current year, hence not applicable.
- (V) Employee/director/supervisor remuneration (the Company does not have supervisors)
 - 1. Percentage and range of employee/director/supervisor remuneration stated in the Articles of Incorporation In the event that the Company's shares are listed on any securities exchange in The Republic of China, any future profits (i.e. pre-tax profit before employee and director remuneration; refers to "Annual Profit" below) shall be subject to provision for employee and director remuneration in the following amounts. However, profits must first be taken to offset against cumulative losses if any.
 - (1) Directors are entitled to annual remuneration at no more than 3% of "Annual Profit," which can only be paid in cash; and
 - (2) Employees of the Company and subsidiaries are entitled to annual remuneration at no less than 1% of "Annual Profit," which can be paid in cash, shares or any combination of the above.
 - 2. Basis of calculation for employee/director/supervisor remuneration and share-based compensations; and accounting treatments for any discrepancies between the amounts estimated and the amounts paid.

If the amount changes after the financial statements are approved and announced to the public, the difference will be treated as a change in accounting estimate and recognized as a gain or loss in the following year.

- 3. Remuneration passed by the board of directors
 - (1) Employees' compensation and directors'/supervisors' remuneration, in cash or in shares. Disclose the amount, causes and treatments of any differences between the amount paid and the amount estimated in the year the expense was recognized:
 - The Board resolved to paid the Directors the 2024 amount of NT\$1,415 housand and the employees the amount of NT\$1,415 thousand as remunerations payable in cash in the session dated March 6 2024. The above remuneration is not different from the estimated amount of expenses recognized in the 2024 financial statements
 - (2) Percentage of employees' remuneration paid in shares, relative to current net income and total employees' remuneration
 - : The Company did not distribute stock dividends in 2024, hence not applicable.
 - 4. Actual payment of employee/director/supervisor remuneration in the previous year (including the number of shares allocated, the sum of cash paid, and the price at which shares were issued), and any differences from the figures estimated (explain the amount, the cause, and treatment of such discrepancies): The actual remuneration for directors and employees of the company in 2024 for 2023 is NT\$736 thousand and NT\$736 thousand.

The amount of remuneration actually distributed to employees and directors is different from the amount recognized on the consolidated financial statement for 2023 due to estimation difference. The discrepancy of NT\$47 thousand is treated as change of accounting estimates and adjusted via the 2024 income statement.

5. Remuneration reported by the board of directors

The distribution resolution of employee compensation approved by the board. The appropriation of 2023 earnings had been approved by the shareholders during their meeting on June 18, 2024 and distribution of bonus to employees and remuneration to directors and supervisors are as follows:

- (1) Employee remuneration NT\$735,755 all paid in case.
- (2) Directors remuneration NT\$735,755 all paid in case.
- (3) Cash dividend to the shareholders NT\$68,097,240.

There is no difference between the reported remuneration issued by the board of directors.

- (VI) Buyback of company shares: None.
- II. Issuance of corporate bonds: None.
- III. Preferred shares: None.
- IV. Global depository receipt: None.
- V. Employee stock warrants: None.
- VI. Issuance of new employee restricted shares: None.
- VII. New shares issued for merger, acquisition or share exchange: None.
- VIII. Implementation of fund utilization plan: None.

Four. Operational Profile

I. Operations

- (I) Scope of business
- 1. Main business activities

The Company is mainly involved in the production and sale of industrial sewing machine parts.

2. Main products and revenue weight

Unit: NTD\$ thousand

Year	20)23	2024		
Product	Amount	Revenue weight (%)	Amount	Revenue weight (%)	
Industrial sewing machine parts	1,239,857	100	1,607,273	100	
Total	1,239,857	100	1,607,273	100	

3. Existing products (services)

The main product lineups of this Company include: accessories before sewing, industrial sewing machine blades, needle blades, automatic assisted devices, automatic sewing equipment, and other industrial blades.

- 4. Planned products (services)
 - (1) Automation devices: Continuously develop and install automation devices on the production lines of terminal garment factories to optimize their equipment, thereby enhancing labor efficiency and production capacity. And improve the performance structure of the old products to make them more in line with the operability and usability of the terminal.
 - (2) Automated equipment: Continuously design and manufacture automated equipment that supports single-machine or multi-machine processes by one person. The product features automatic material collection, time-saving and labor-saving. It is provided to terminal garment factories as peripheral sewing equipment production lines to reduce the number of workers and production costs. And develop towards sewing production lines composed of unit automated equipment through single or multiple sewing processes, and cooperate with garment factories to design sewing equipment or automated sewing production lines for special products.
- (3) Potential products: leather cutters, leather skiving knives, new materials of alloy, trading goods and products of investment casing.

(II) Overview of business

- 1. State of the current industry and prospects
 - (1) State of the current industry
 - According to the China Sewing Machinery Association published on the current challenges and opportunities facing the industry

In 2024, various household and industrial sewing equipment manufactured by the sewing machine sector in China was nearly 11 million units, and the export value attained nearly US\$3.4 billion. Among the other things, the development of the leading fields, such as artificial intelligence, is booming, and the innovation of technology constantly induces the new industries, new models, and new momentum. Looking forward to 2025, the apparel sector will accelerate its transformation into intelligentization. The applications of big data and AI technologies will facilitate the sewing machine sector to get rid of the traditional growth method and value route. The massive application of smart sewing technology with digital, intelligent and green characteristics and big data and AI solutions signifies the accelerated formation of the new quality of the industry. The sector is developing toward high quality. The construction of the modern industrial system will signify the reform and development of the sewing machine sector in China, which leads the sewing machine sector all over the world.

●Industry Export Market Overview

According to data from the General Administration of Customs of the People's Republic of China, the export value of the sewing machine products of China in 2024 was US\$3.424 billion, growing by 18.39% YoY. Among the other things, the industrial sewing machine export volume totaled 4.69 million units, and the export value amounted to US\$1.522 billion, growing by 8.42% and 16.48% YoY, respectively. The interlock sewing machine export volume totaled 96,000 units, declining by 19.37% YoY, and the export value amounted to US\$683 million, growing by 38.41% YoY. The pre- and post-sewing equipment export volume totaled 1.97 million units, and the export value amounted to US\$494 million, growing by 23.18% and 14.58% YoY, respectively. The export of major products in the sector appears to be growing.

Export of Sewing Machine Products in China from January to December 2024

	Ex	port	Growth YoY		
Name of product	Quantity (Unit)	Amount (US\$)	Quantity (%)	Amount (%)	
Home sewing machine	10, 683, 993	286, 228, 852	22. 06	9. 41

Summary of sewing machine products	_	3, 423, 941, 526	1	18. 39	

Export value of the sewing machine sector in China

In 2024, China's exports of sewing machine products to Asia, Latin America, and Africa showed a growing trend, while the exports to Europe, North America and Oceania showed a declining trend. In various regional markets, the export value in the markets under the "Belt and Road Initiative" of China was US\$2.393 billion, growing by 26.95% YoY and accounting for 69.88% of the sector's export value, growing by 4.71% YoY. The export value of the RCEP market was US\$1.029 billion, growing by 40.90% YoY and accounting for 30.05% of the sector's export value, growing by 4.80% YoY. The export value of the South Asian market was US\$913 million, growing by 44.31% YoY and accounting for 26.66% of the sector's export value, growing by 4.79% YoY. The export value of the ASEAN market was US\$903 million, growing by 53.43% YoY and accounting for 26.36% of the sector's export value, growing by 6.02% YoY. The export value of the West Asian market was US\$249 million, declining by 12.86% YoY. The export value of the European Union market was US\$138 million, declining by 23.71% YoY. The export value of the East Asian market was US\$110 million, declining by 11.85% YoY. The export value of the Middle East market was US\$97.37 million, declining by 31.68% YoY. Specifically, among the 207 countries and regions that exported sewing machine products from China in 2024, nearly 60% of the market export value had increased year-over-year. The export value from the top six export markets (India, Vietnam, Pakistan, Bangladesh, Brazil and Indonesia) had all grown by more than 30% YoY. Among the top 20 export markets, 13 markets have shown positive growth in exports, and 11 markets have shown a 30% growth or more, and 1 market has doubled its exports, namely Pakistan. India is still the largest sewing equipment export market of China. The export value of sewing machine products of China to India totaled US\$562 million, growing by 0.52% YoY and accounting for 16.42% of the sector's export value in China. The export value to Vietnam totaled

US\$368 million, growing by 71.19% YoY and accounting for 10.74% of the sector's export value in China. The export value to Pakistan totaled US\$169 million, growing by 154.17% YoY and accounting for 4.94% of the sector's export value in China. The export value to Bangladesh totaled US\$143 million, growing by 30.79% YoY and accounting for 4.19% of the sector's export value in China. The export value to Brazil totaled US\$142 million, growing by 40.79% YoY and accounting for 4.14% of the sector's export value in China.

(2) Industry prospect

In 2024, under the trend of intelligent transformation and upgrade of the sewing sector, the sector will develop towards automation, digitization, intelligence and personalization. The highperformance sewing platform has formed a new smart sewing ecological system. From January 8 to November 11, 2025, the first overseas sewing equipment exhibition, the 2025 GARMENT TECHNOLOGY BANGLADESH (GTB), was held at the Bangabandhu International Conference Center. Nearly 200 merchants participated in the exhibition, with a total of 15,000 square meters and a professional audience of about 20,000 persons. As a professional exhibition that can exert more influence among the similar exhibitions in Bangladesh, GTB, through 22 years' hard work, has become an important procurement platform for the garment sector in Bangladesh and surrounding areas. Textile garment is a pillar industry in Bangladesh. It is the world's second largest export of textile. The export of denim clothing remains the world's first. According to IMF, the domestic output value of the textile sector accounts for about 18% of the country's gross domestic product (GDP), and keeps growing by about 6% annually. From 2023 to 2024, the export value of the textile sector in Bangladesh reached US\$48 billion, accounting for more than 80% of the country's total export value. Meanwhile, Bangladesh is also an important export country for China's sewing machine sector. The share of exports is only seconded by India, Vietnam, Pakistan and Brazil. It ranks as the fifth largest export market. According to the estimates of the BGMA, the export value of Bangladesh's sewing machine sector in 2025 will account for more than 10% in the global market. The huge demand for sewing machine products in the market of Bangladesh, coupled with the overseas orders transferred due to the pandemic, has significantly promoted the demand for high-efficiency automated sewing machine equipment by local clothing manufacturers. According to the forecast of the China Sewing Association, in recent years, the sewing machine industry chain market has gradually shifted to the laborintensive areas in central and western and overseas. The small-quantity and personalized customization have become users' mainstream need. The sector is becoming more and more concentrated, and specialized and sophisticated enterprises are accelerating their growth to promote the accelerated transformation of the entire sector from automation to digitization and intelligence. For the digital transformation, the Company has digitized the product design, key processes and supply chain control. These efforts are applied to the construction of manufacturing units, smart production lines, smart workshops and smart factories. The goal is to improve the overall digitized horizontal and operational efficiency of the Company, and to refine the platform construction and ecological system innovation..

2. Connection between upstream, midstream and downstream industry participants

The Company is a producer and seller of industrial sewing machine parts, which places it in the upstream of the industry chain. The mid-stream participants comprise industrial sewing machine manufacturers and parts distributors, whereas downstream participants comprise manufactures of garments, bedding accessories and textile products.

3. Industry and product trends

(1) Automation is the key industrial adjustment and development

Through introduction of digitally controlled equipment, a processing center and automation of existing equipment, businesses may yield significant benefits including reduced work force, simplified process, increased production capacity, lower wastage, improved efficiency and higher quality assurance. In recent years, sewing machine parts manufacturers have invested extensively into renewing production equipment and improving technologies. As a result, production capacity and the level of automation have advanced substantially across the industry in recent years. Currently, it is common for businesses to have 1 worker operate 2 production equipment, and some businesses with high level of automation may even have 1 worker operating 3-4 equipment at one time. Due to increased yields of replacing manual labor with machinery, businesses have been able to reduce the size of production labor while at the same time increase production efficiency by a significant extent in recent years. As a result, sewing machine parts manufacturing is quickly transforming from a labor-intensive industry into a technology and labor-intensive industry.

Manufacturing of sewing machine parts is characterized by a number of challenges including wide product variety, low volume per category, multiple procedures, and complex craftsmanship. Some of the production procedures have been successfully automated in recent years, and certain critical procedures or parts that can not be mass-produced still require the presence of highly experienced technicians to ensure the quality of goods produced. Although businesses will still focus largely on equipment upgrade and automation for the next 2-3 years, the benefits of equipment automation are diminishing over time, and the industry will soon find its growth bottlenecked. Through adoption of new materials, new process and smarter technologies, the sewing machine parts industry may be able to regain its growth momentum.

(2) Transformation towards intensive and micro-management

As technology evolves and competition intensifies within the industry, sewing machine parts manufacturers have taken steps to develop modern management practices in recent years by shifting from a general to more intensified micro-management approach.

Through the adoption of new business administration philosophy and advanced management practices, sewing machine parts manufacturers are able to incorporate standards into daily management and embrace new values such as "professionalism, specialization, and customization."

(3) Product focus, specialization, adjustment and positioning of the parts manufacturing business

In recent years, sewing machine parts manufacturers have seen their profits dwindle due to intensified competition, which they responded by removing low-margin or less competitive items from their product portfolios so that resources can be concentrated to the items they have an advantage of and build a professional and specialized reputation. In the meantime, businesses are seeking to introduce parts and components of higher complexity and precision as means to improve profitability and expand growth prospects.

(4) Innovative manufacturing and support of product diversity offer transformation opportunities for parts manufacturers

Following the 2008 global financial crisis, the sewing machine industry underwent a series of changes that shifted the industry's demand towards all-in-one and intelligent machinery. The need for product upgrades lessened and parts

manufacturers were faced with volatile or inadequate demands. Many manufacturers that relied on single sewing machine parts were presented with increased business risk, while few struggled to survive from the substantial loss of purchase orders. For this reason, many manufacturers have sought to expand market exposure by producing parts for electric tools, medical machinery, electromechanical systems, pumps, automobiles and hydraulic components in recent years. This diversified approach did reduce business risk and enabled manufacturers to maintain business activities, production and employee size relatively stable.

4. Competition

The industry has undergone structural adjustment at such a rapid rate in recent years that sewing machine parts manufacturers have responded with different competitive strategies, causing the industry divide to widen further in the following ways:

- (1) Large players grow stronger. Renowned parts manufacturers including Strong H, Deying, Wangong, Yingong, Sage, Huajie, Huayi, Shunda and Wangye have invested persistently into equipment, technology, management and quality over many years that they were able to improve product quality and brand awareness over time. As a result, they attract purchase orders and grow against the declining industry, which in turn enables them to make higher investments. These additional investments will undoubtedly compound their competitive advantage.
- (2) Mid-size businesses diversify from sewing machine into other industries. Lower demand for sewing machine combined with reduced profit margin has limited the industry's growth potentials, causing mid-size parts manufacturers (with annual production value between RMB 15 million and RMB 30 million) to adjust product portfolio on a more active scale. While they continue to develop high value-adding products for the sewing machine industry, they also explore ways to utilize existing production equipment for other manufacturing activities, and find growth opportunities in alternative products and industries.
- (3) Small-size parts manufacturers facing difficulties. Loss of purchase orders in a declining industry presents survival challenge to manufacturers that only employ a few dozen employees and produce several million dollars of goods a year. Their lack of production advantage and capital also makes diversification and transformation a nearly impossible task. These businesses tend to exhibit higher loss of revenue when the industry is in decline.

(III) Overview of the Company's technologies and R&D

1. Technical complexity and R&D

The Company produces a wide variety of industrial sewing machine parts including blades, needle plates, thread cutters and others, and therefore has the ability to satisfy customers' diverse needs. The Company's current R&D efforts are focused toward patent application, development of automated and digital devices, high-quality and high value-adding blades and needle plates.

2. Academic and career background of R&D personnel

				Unit: persons
Year Personnel	2021	2022	2023	2024
Doctor	_	_	_	_
Master	_	_	_	_
Bachelor	26	22	21	25
Diploma (and below)	71	165	162	167
Total	97	187	183	192

3. Annual R&D expenses in the last 5 years

	J -			Unit: N	NTD\$ thousand
Year Item	2020	2021	2022	2023	2024
R&D expenditures	94,829	79,071	72,715	72,295	84,446
Net revenues	1,257,46 4	1,722,922	1,760,939	1,239,857	1,607,273
As a percentage of net revenues (%)	7.54	4.59	4.13	5.83	5.25

4. Technologies or products successfully developed

In addition to designing customized blades, hooks and thread-cutting devices for customers, the Company has also developed high value-adding technologies such as anti-wear and anti-corrosion treatment, auto thread cutter and multi-purpose blades for the purpose of bringing higher value products to customers

In terms of production technology, improvements to metal polishing, cold stamping, quench test etc combined with the development of automated equipment enables production of better quality products at higher efficiency.

products at	inglet efficiency.
Category	Major R&D results
	Thread-cutting components, hooks, thread cutters, blades…
Product	Anti-wear and anti-corrosion stamped blades, durable anti-wear blades, automated thread-
Troduct	cutting system, multi-purpose thread-cutting blades, multi-purpose rag cutters etc.
	Overlock, interlock, anti-bird nest, belt cutting device etc.

atent	selective quenching test equipment, sewing machine parts drawing device, durable
	stationary blade etc.

(IV) Long and short-term business plans

- 1. Short-term business plan
 - A. Conduct research on competitors' products, analyze their strengths and weaknesses, formulate effective countermeasures, and increase the market share of parts..
 - B. Conduct market demand research on opportunity products, formulate promotion plans and develop sales strategies.
 - C. Research on the demands of major factories for automation devices and large equipment terminals, joint product development, creating prototypes (sales models) and replicating them to other factories (customers).
 - D. Formulate marketing promotion and sales promotion activity plans, optimize the management system of distributors and agents, and improve market and price management.
- 2. Long-term business plan
 - A. Follow the differentiation strategy.
 - B. Meet the customer's requirements for price and delivery time.
 - C. Pursue quality first and product innovation.
 - D. The product range is complete and the products offer high cost performance.
 - E. Provide maintenance services and customized services.
 - F. Improve the applicable performance of the product
 - G. Improve the applicable performance of the product.

II. Overview of market, and production and marketing

- (I) Market analysis
 - 1. Locations where products are primarily sold

Unit: NTD\$ thousand

Year	2022		2023		2024	
Geographic areas where the main products are provided	Amount	Percentage (%)	Amount	Percentage (%)	Amount	Percentage (%)
C h i n a	1,357,513	77.09	965,531	77.87	1,270,732	79.06
Asia - others	290,364	16.49	182,407	14.71	222,542	13.85
A m e r i c a	60,465	3.43	49,677	4.01	66,514	4.14
E u r o p e	31,300	1.78	33,802	2.73	31,239	1.94
O t h e r s	21,297	1.21	8,439	0.68	16,246	1.01
T o t a 1	1,760,939	100	1,239,857	100	1,607,273	100.00

2. Market share

The Company is one of the largest industrial sewing machine parts manufacturers and sellers in the world. It currently produces more than 10,000 different parts for industrial sewing machines classified between 5 main categories: blade, needle plate, teeth, presser foot and needle clamp. The Company operates more than 400 pieces (sets) of advanced equipment to supply products of exceptional quality and craftsmanship to China and the rest of the world.

The Company's key customers comprise renowned sewing machine brands including: JUKI, SiRUBA, Brother, TYPICAL, ZOJE, Protex, SGGEMSY, Jack, Feiyue, Golden Wheel, Pegasus, Yamato, Kansai, Sunstar, PFAFF, Highlead, Kingtex, SewQ, Shing Ling, Feiya, and Tianniao. Strong H products are sold to more than 40 countries worldwide and is one of the market's leading brands.

- 3. Future market supply, demand and growth
 - (1)The trend of restorative growth continues, and structural excesses appear Affected by strong market demand, low inventory and shortage of parts, the company's increased production and strong willingness to expand, in the case of rapid domestic market demand saturation, the inventory of single-machine products increased significantly, and showed a rapid expansion; Products such as high-efficiency automatic sewing units are still in short supply, and structural overcapacity and development imbalances in the industry are highlighted.
 - (2)Insufficient supply of spare parts, industry competition extended to supplyDue to the high-speed growth demand, the development of high-quality parts is often under the influence of the upstream part of the blank casting, heat treatment, blackening and other operations, and the difficulty in recruiting workers, the effective supply capacity of the industry parts is far from meeting the requirements of the whole machine. The competition of the whole machine enterprise is rushed from the distribution level to grab the order and gradually extend to the production and supply links.
 - (3)Key enterprises accelerate adjustment and focus on high-efficiency sewing unit products. The production capacity of leading products such as flat seaming machine is quickly concentrated in

leading enterprises, and the signs of industry reshuffle are becoming increasingly clear. In order to avoid competition and transform and upgrade to high value-added products, key enterprises have adjusted their structure, focused on advantages, highlighted differences, developed automation, intelligent model machines and automatic sewing units and other related products, and high-efficiency sewing unit products are gradually mass-produced.

(4)Increase the expansion and layout of overseas markets due to the efforts of the international market

Enterprises have adjusted the structure to meet the needs of the international market, and accelerated the expansion, layout and production capacity of the international market. First, actively participate in various international professional sewing equipment exhibitions, secondly, increase technical training for foreign dealers, improve marketing and service capabilities in the international market.

(5)New progress in high quality developmentFirst, the quality improvement continued to deepen. Second, the demand for high value-added and high-quality products increased substantially. The third was the in-depth advancement of smart manufacturing. The fourth was significant progress in mergers and acquisitions.

4. Competitive advantage

- A. The Company markets products to the world under its proprietary brand "STRONG H," which is one of the leading brands of machinery parts.
- B. Strong business management and quality assurance system.
- C. Competent product R&D team and capacity.
- D. Flexible solutions and ability to design products to customers' needs.
- E. Robust human resource system and talented management team.
- F. Experienced frontline employees; 50% of the Company's employees have contributed more than 10 years of service.
- G. Complete supply chain of supporting partners.
- H. High-efficiency production model and scale.
- I. Excellent corporate culture that aligns employees' growth with business growth and emphasizes on customers' satisfaction.
- 5. Opportunities, threats and response strategies
 - A. Positive factors
 - (A) Ability to materialize precision, speed and new technologies in manufacturing equipment

The industry is demanding increasing level of precision in mechanical parts of all shapes and sizes in recent years. The conventional mechanical manufacturing industry has responded to this trend by developing the ability to perform precision/high-speed/composite machining, so that they may improve the precision, performance and quality of products produced. The sewing machine industry is currently undergoing rapid structural adjustment and technological upgrade, with products being designed with high-speed and intelligent features. The shape and complexity of specialized parts have also increased continuously, which requires greater level of precision from parts manufacturers. 5-axis machining, for example, makes it possible to produce mechanical parts of complex shape and curvature, and creates opportunities for structural innovation and optimization. Composite machining, on the other hand, allows complex parts to be produced on a single machine, and therefore eliminates the need to move, load and unload between different machines for more simplified process and higher work quality. The Company will be able to accommodate the sewing machine industry's ever-growing needs with improved production quality and efficiency if it follows the machining trends and invests into advanced technologies and equipment.

(B) Develop new products and strategic alliances in line with structural adjustment and industry migration

Due to increasing level of competition, sewing machines with customized features and proprietary intellectual property rights will begin to surface, giving rise to the need for new parts. Sewing machine production in China has improved in quality that it is no longer feasible for renowned Japanese enterprises to produce specialized, complex automation parts in wide variety, low volume and high cost back home. As a result, there has been a shift of production activity towards China in the last two years. This movement will provide new business opportunities if responded appropriately. The sewing machine industry is progressing in two extremes where large players grow even larger and specialized manufacturers become more focused in their areas of expertise. As the number of industry participants dwindle, the industry will resemble more of an oligopolistic competition. For parts suppliers, it is essential to engage machine manufacturers in strategic alliance to secure the supply of parts and ensure future growth.

B. Threats and response strategies

(A) Industrial sewing machines are susceptible to changes in the economic cycle. The Chinese market has saturated with business participants exhibiting slow growth and declined profitability

Due to poor performance of the sewing machine industry, parts manufacturers experienced a general decline in sales volume throughout 2014. Although sales remained relatively stable in the first half, industry participants generally experienced a 30% to 50% decline in the second half, forcing parts manufacturers to increase the amount sold on credit in an attempt to retain customers. It was common for receivables balance to reach 15-20% of annual production value, and some businesses even had receivables exceeding RMB 10 million and averaging a collection period of more than 5 months. The buildup of receivables risk is evident within the industry. Furthermore, rising wages and social insurance premiums in China are starting to impose additional cost and burden to businesses. The general decline in business profitability was largely attributed to the above factors.

Countermeasures

The Company has been planning ahead of time in response to these changes, targeting not only to serve existing customers, but expand new sales channels as well. In addition to designing customized blades, hooks and thread-cutting devices for customers, the Company has also developed high value-adding technologies such as anti-wear and anti-corrosion treatment, auto thread cutter and multi-purpose blades for the purpose of bringing higher value products to customers. In the meantime, progressive changes are being made to the management team, the funding structure and production equipment to improve overall efficiency and competitiveness in the manufacturing of sewing machine parts.

(B) Shortage and high attrition rate of labor undermine business growth

The Company is a conventional mechanical manufacturer that is unlikely to grow out of its labor-intensive nature in the short term. Having well-experienced technicians on the production line is still key to the Company's growth. Due to the undesirable work environment and complex craftsmanship involved, technicians tend to request for higher compensation, which increase personnel cost over time. New employees tend to lack loyalty and exhibit high attrition rate in response to work environment, workload, salary, and career prospect. Instability among employees eventually affect the quality and consistency of products produced. According to surveys conducted by the CSMA Parts Committee, issues such as hiring of technician, employee attrition and aging workforce are common among businesses. This reality is even more severe in coastal areas including Ningbo, which has significant adverse effects on business stability and growth.

Countermeasures

The Company will aim to improve its production environment and dormitory, and implement a fair, reasonable compensation system supported by training programs that employees may find accommodating. Employees with more than 10 years of service history currently account for over 50% of total employees, which is indicative of employees' loyalty towards the Company.

(C) Rising labor and operating costs

The Company's main production sites are located in Shandong Provice (Qingdao City and Laizhou City), China. As the Chinese economy grows, salary and social insurance premiums rise, causing businesses to incur additional personnel costs over time. According to CSMA's survey on the nation's top-30 parts manufacturers, 1/3 of businesses generated annual profits less than RMB 1 million and less than 1/2 of them had gross profit margin exceeding 18%.

Countermeasures

The Company will aim to implement fair and reasonable compensations supported by a robust training system to speed up automation and thereby reduce the need for manual labor. Meanwhile, refined management practices and models will be adopted to improve production efficiency. Reduce personnel costs.

- (II) Key purpose and manufacturing processes for the Company's main products
 - 1. Purposes of main products

The Company is mainly involved in the production and sale of industrial sewing machine parts and automation devices. Its products are used for the assembly and repair of industrial sewing machines. Main product categories include industrial sewing machine blades, needle plates, thread cutters and others.

2. Production process of main products

(III) Supply of main materials

The Company is mainly involved in the production and sale of industrial sewing machine parts, where steel is the key raw material. All primary suppliers are long-time business partners, and the Company also maintains sound relationship with secondary suppliers

. For this reason, the Company has been able to secure the supply of key materials.

Key materials	Key suppliers	Supply status
Steel material, Steel	Hongshu Enterprise, Foshan Nanhai Anhong Metal.	Satisfactory
plate	Erasteel, Zhejiang Haohuan,	
Knife head, knife	Qianghao Machinery, Heavy Machinery (Shanghai),	Satisfactory
holder, blade	and Laizhou Huangjia Precision. Laizhou Guanrong

Pneumatic	Teng Zhuo Smart Technology Co., Ltd.	Satisfactory
components		
Electromagnet	Ningbo Cihong Electronicmechanical Technology	Satisfactory
	Co.,Ltd.	
Spare parts for	Ningbo Beilun Risheng Sewing Machine Bolt Factory	
screws and		Satisfactory
bushings		

- (IV) Name of trade partner representing more than 10% of total purchases (sales) in any of the previous two years, and the amount and percentage of purchase (sale). Describe the cause of any variation
 - 1. Name of supplier representing more than 10% of total purchases in any of the previous two years, and the amount and percentage of purchases made. Describe the cause of any variation:

The Company produces a wide range of products and therefore requires a broad variety of materials from diversified sources. No single supplier had represented more than 10% of total purchases in any of the last 2 years.

2. Name of customer representing more than 10% of total sales in any of the previous two years, and the amount and percentage of sales made. Describe the cause of any variation:

The Company has a diversified source of customers due to its distinctive industry characteristics. No single customer had accounted for more than 10% of total sales.

III. Employee size, average years of service, average age, and academic background in the last 2 years by the date of

report publication

Item		2023	2024	As of March 31, 2025	
	Direct labor	930	898	1,016	
Number of employees	Indirect labor	242	321	286	
	Managerial staff	127	130	130	
	Total	1,299	1,349	1,432	
Average age		38.9	39.1	39.1	
Average tenure (year)		9.8	9.9	9.5	
	Doctor	0	0	0	
	Master	0.08	0.15	0.14	
	College	26.56	29.04	29.12	
Education distribution ratio (%)	Senior high school	55.46	49.74	50.50	
	Below senior high school	17.91	21.07	20.25	
	Total	100	100	100	

IV. Information about expenditure on environmental protection

The Company is mainly involved in the production and sale of industrial sewing machine parts, which is not considered a pollutive industry. Although the Company uses electroplating equipment, it produces limited volume of pollution and no treatment facility is implemented. Instead, the Company engages legally licensed environmental service providers to collect and treat the hazardous waste produced and therefore poses no pollution concern.

(I) Any losses (including compensations) or fines incurred (including compensations and violations of environmental protection laws found in environmental audits with information regarding the date of punishment, ticket number, regulations breached, contents of breach, and contents of punishment) due to pollution in the last year and by the date of report publication, and disclose the estimated amount at present and in the future and countermeasures, or the reasons preventing from estimation, if any:

The Company and subsidiaries (including 2nd-tier subsidiaries) did not incur any losses or fines due to pollution in the last year and up till the publication date of annual report.

(II) Major environmental protection spending planned for the next 2 years: None.

V. Labor-Management Relations

- (I) Availability and execution of employee welfare, education, training and retirement policies. Elaborate on the agreements between employers and employees, and protection of employees' rights:
 - 1. Employee welfare measures and implementation

The Company provides the 5 insurance coverage, contributes to the housing provident fund, and offers employee benefits such as Chinese New Year/Mid-autumn gifts, annual health checkup, childbirth gifts, annual banquet and prize draws.

- 2. Employee education and training
 - A. The Company organizes pre-job and on-job training courses and invites participation from employees in need
 - B. Employees may participate in external training courses where necessary and have expenses subsidized by the Company.
- 3. Retirement system and implementation

The Company pays retirement insurance premiums on behalf of employees in compliance with local laws, and thereby contributes to the security of employees' lifestyle after retirement. Retirement insurance has been included as part of the social insurance scheme (which covers medical, childbirth, retirement, work injury and unemployment insurance) under the local regulation. The Company begins fulfillment of its retirement insurance obligations as soon as an employee is placed onto the social insurance list.

4. Enforcement of labor agreements and employee rights

The Company places great emphasis on labor-management relations and enables employees to reflect opinions through meetings, e-mail or the grievance hotline. This open communication helps maintain harmonic labor-management relations and no significant employment dispute has occurred to date.

(II) Losses arising as a result of labor-management disputes (including the violation of the Labor Standards Act found in the labor inspection, with information regarding the date of punishment, ticket number, regulations breached, contents of breach, and contents of punishment) in the last year up and by the date of report publication. Please quantify the estimated losses and state any responsive actions, and state the reasons if losses cannot be reasonably estimated:

The Company has always maintained harmonic labor-management relations, and no loss had incurred as a result of employment dispute in the last 2 years up till the publication date of the prospectus.

VI. Cyber Security Management:

- (I) Provides the cyber security risk management framework, Cyber Security Policy, specific management plans and cyber security management resources invested.
 - 1. Cyber security risk management framework

The Company has set up a dedicated cyber security unit and the supervisor of the Information Management Department oversees the coordination and promotion of information security management affairs. An Information Security Promotion Team may be formed as necessary. The president serves as the convener of the Information Security Promotion Team, while the supervisor of the Information Management Department is responsible for compiling an annual security assessment report. The organizational team is made up of the Information Security Processing Team and the Information Security Review Team. The Information Security Processing Team is responsible for the establishment of the information security policy, plans and technical specifications and security evaluation; while the Information Security Review Team cooperates with the Company's audit unit and maintains information confidentiality and audit management. The Information User Unit is responsible for proposing data and information security requirements, usage management and protection.

- 2. Cyber Security Policy
 - A. Increase information security awareness of personnel.
 - B. Avoid leakage of sensitive information.
 - C. Implement the effectiveness of daily operations.
 - D. Ensure sustainable operation.
- 3. Specific management projects

Item	Content
	Appropriate security assessments are conducted when accessing sensitive and confidential information.
Personnel	Regular information security education and training and promotion is provided to
Safety and	personnel at different ranks.
Management	Network and information security promotion is provided to newcomers before employment.
	Access privileges are timely adjusted when an employee leaves.
Asset	•Create an information asset inventory and establish maintenance and updates on
classification	information asset projects and custodians
and control	•Establish phased information security control based on the Company's impact
and control	of information leakage.
	•Establish information system access control rules so that users' access to
	network system services is restricted within the scope of authorization.
	•User access management: Registration management, special privilege
Access	management, access code and source code management, access privileges, and
control	remote login control by external vendors,
	remote login control by external vendors.
	 Set up a separate or exclusive operating environment in consideration of sensitive and confidential information
Computer	Employees' own login account and password control.
processing	Routine review of user privileges and routine data backup.
of personal	Procedures for disposal of hard disk data from computers and management of
data	storage devices for departed employees.
protection	storage devices for departed emproyees.
Outsourced	•External connection security control mechanism.

operation of	•Emergency preventive measures.
the operating	
system	
Promotion	•Annual security assessment.
and	•Annual information security policy evaluation to respond to the current
	development of laws, technology and business.
assessment	Regular information security education and training and promotion is provided to
review.	personnel of different rank.

4. Resources invested for cyber security management

The Computer Communications Team of the Information Management Division is responsible for the establishment and evaluation of information security policies, plans and technical specifications. At least once a year, a security evaluation is performed on information users, information systems and information devices to ensure they are in compliance with the information security policies and regulations. Information security policies are evaluated once a year to respond to the current development of laws, technology and business.

- (II) Losses, possible impacts and countermeasures as a result of major cyber security incidents in the last year up to the publication date of this annual report, state the reasons if losses cannot be reasonably estimated:
 - 1. No major information security incidents occurred that resulted in business losses in the last year up to the publication date of this annual report.
 - 2. The Company has an emergency notification procedure in place; when an information security incident occurs, the unit will notify the "Information Security Promotion Team" to determine the classification of the incident and identify the problem. The issue shall be dealt with immediately and a record kept. The Company will also continue to implement its information security management policy and achieve the objectives, while at the same time conducting regular recovery plan drills. By doing this, the Company's important systems and data security are protected.

VII. Major agreements

Contracts signed between the Company's main operating entities, namely Hao Qiang Precision Machinery (Qingdao) Co., Ltd. and Strong H Mechanical Technology (Laizhou) Co., Ltd., with main customers and suppliers are as follows:

Nature	Participants	Contract start and end dates	Main contents	Restrict clauses
	Strong H Machinery Technology (Laizhou) INC. Jack Sewing Machine Co., Ltd.	2017.1.1-Long Term		-
	Strong H Machinery Technology (Laizhou) INC . Zoje Sewing Machine Co., Ltd.	2025.1.1-2025.12.31		-
Sale	Strong H Machinery Technology (Laizhou) INC . Kaulin Mfg. Co., Ltd.	2013.1.1- Long Term	Sales Agreement	-
	Hudong Heavy Machinery Co., Ltd.	2015.4.22- Long Term		-
Purchase	Hao Qiang Precision Machinery (Qingdao) Co., Ltd.	2025.1.1-2025.12.31	Purchase agreement	-
	Strong H Machinery Technology (Cayman) INC /Cathay United Bank	2024/8/15~2025/8/15	USD 3 million operating turnover fund	-
Loan Contract	Strong H Machinery Technology (Cayman) INC /Mega International Commercial Bank Patch Branch	2024/7/5~2025/7/5	USD 3 million operating turnover fund	-

Five. Review, analysis and risk of the financial status and management result

I. Financial position

(I) Financial information for the last 2 years

Unit: NTD\$ thousand

Year	2023	2024	Vari	Variance		
Item	2023	2024	Amount	(%)		
Current assets	1,458,303	1,509,807	51,504	3.53		
Property , plant, and equipment	537,215	554,940	17,725	3.30		
Intangible assets	22,404	32,052	9,648	43.06		
Other assets	224,210	253,075	28,865	12.87		
Total assets	2,242,132	2,349,874	107,742	4.81		
Current liabilities	474,639	461,076	(13,563)	(2.86)		
Other liabilities	36,947	23,491	(13,456)	(36.42)		
Total liabilities	511,586	484,567	(27,019)	(5.28)		
Capital stock	680,972	680,972	0	0.00		
Capital surplus	423,802	396,563	(27,239)	(6.43)		
Retained earnings	739,822	837,641	97,819	13.22		
Other equity	(114,050)	(49,869)	64,181	(56.27)		
Total shareholders' equity	1,730,546	1,865,307	134,761	7.79		

The main reasons for the significant changes in assets, liabilities and shareholders' equity in the last two years (more than 10% in the previous period and the absolute change amounted to NT\$100,000) and their impact and future response plans:

- 1. Intangible assets: Mainly caused by purchasing system software..
- 2. Other assets: Mainly due to the increase in right-of-use assets.
- 3. Other liabilities: Mainly due to the deferred income tax liabilities.
- 4. Retained earnings: Mainly due to the increase in net profit for the current period.
- 5. Other rights and interests: It was mainly due to that for the exchange differences on translation of the financial statements of foreign operations.

II. Financial performance

(I) Financial performance analysis for the previous 2 years

Unit: NTD\$ thousand

Year	2022	2024	Variance		
Item	2023	2024	Amount	(%)	
Total operating revenue, net	1,239,857	1,607,273	367,416	29.63	
Operating cost	852,486	1,084,352	231,866	27.20	
Gross profit	387,371	522,921	135,550	34.99	
Total operating expenses	325,591	367,097	41,506	12.75	
Operating income	61,780	155,824	94,044	152.22	
Total non-operating revenue and expenditure	17,470	10,356	(7,114)	(40.72)	
Income before tax	79,250	166,180	86,930	109.69	
Income tax expenses	7,146	27,503	20,357	284.87	
Net profit in the current period	72,104	138,677	66,573	92.33	

The main reason for major changes:

The increase or decrease ratio has changed by more than 20%, and the amount of change has reached NT\$10 million. The analysis is as follows:

- 1. Net operating income: Mainly due to the rebound in industrial prosperity, customer orders increased compared with the same period last year.
- Operating costs: Mainly due to the increase in operating income compared with the same period last year, resulting in a increase in operating costs compared with the same period last year.
- 3. Operating gross profit: Mainly due to the promote in product line capacity utilization and utilization rate, operating income increase compared with the same period last year; operating gross profit also increase with the same period last year.
- 4. Operating profit: The main reason is that fixed operating expenses did not increase significantly, so operating profit increase significantly.
- Total non-operating income and expenses: Mainly due to the decrease in government subsidies and foreign currency exchange benefits.
- 6. Net income before tax: Mainly due to the increase in operating income compared with the same period last year, the increase in profit margins and the relative decrease in operating expenses, resulting in the increase in pre-tax profit compared with the same period last year.
- 7. Income tax expenses: As pre-tax profits increased compared with the same period last year and the preferential tax policies last year were better, income tax expenses increased compared with the same period last year.
- 8. Net income: It was mainly due to the increase of the operating revenue from the same period of last vear.

(II) Sales forecast and basis

The Company has secured its place as the industry leader for many years. Based on assessment of market demand and sales/supply to customers, the Company expects sales volume and value to grow in the coming year. With the mass production of newly developed products and strengthened relationship with new and existing customers, the Company is optimistic about its profit growth.

(III) Possible financial impacts and response plans

The Company has been able to maintain sound financial structure and rational control of operating costs. They provide the basis for future business growth.

III. Cash flow

(I) Analysis of cash flow variations in the last year

Unit: NTD\$ thousand

Year	2022	2024	Variance		
Item	2023	2024	Amount	(%)	
Operating activities	243,983	201,275	(42,708)	(17.50)	
Investing activities	(4,358)	(92,228)	(87,870)	2016.29	
Financing activities	(183,625)	(153,972)	29,653	(16.15)	

Analysis of Capital Changes:

- 1. Cash flow from operating activities: Mainly due to the increase in notes receivable and accounts receivable.
- Cash flow from investing activities: Decrease in disposal of financial assets measured at amortized cost and increase in asset acquisitions.
- 3. Cash flow from financing activities: Cash dividend payments decreased.
- (II) Improvements for lack of liquidity

Inadequacy

(III) Analysis of variance in cash flows for the future year:

Unit: NTD\$ thousand

Opening cash	Expected net cash flow from	Projected cash flow from	Expected cash	Financing c	1 0
	operating activities for the year	investing and financing activities	surplus (deficit)	Investment plans	Financing plans
551,265	209,506	-283,000	477,771	_	-

Change situation analysis:

- 1. Business activities: Net profit before tax increased. Accounts receivable increased..
- 2. Investment and financing activities: It mainly pays cash to acquire real estate, plants and equipment; repay short-term borrowings and issue cash dividends.
- IV. Material capital expenditures in the last year and impact on business performance:

The Company did not incur any major capital expenditure in the last year.

- V. Direct investment policy, the main reasons for profit or loss, and corrective action plan for the most recent year, and investment plan in the next year
 - (I) Direct investment policy in the most recent year:

The Company manages its investments according to the investment cycle outlined in the internal control system. Furthermore, the Company follows its "Policy on Financial and Business Dealings with Specific Entities, Group Enterprises and Related Parties" and "Subsidiary Monitoring Policy" and helps investees establish appropriate internal control systems given the prevailing local regulations and applicable practices. With respect to the organizational structure, all investees have had director positions created according to local laws and assigned by the parent company. Presidents of all investees are uniformly appointed by the parent company, whereas other managerial staff are assigned or recruited under the authority of the respective presidents. However, appointment and dismissal of the head of finance is subject to the consent of the parent company. The Company obtains financial statements, operational reports and audited financial statements of all its investees on a regular basis, which therefore enables timely analysis and assessment on the operational performance and profitability of individual investees. Furthermore, the company has an internal audit department that performs regular and unscheduled audits on subsidiaries, devises audit plans, issues audit reports, monitors defects within the internal control system, and follows up on improvements.

(II) Causes of profit or loss incurred on investments in the last year, and improvement plans:

Unit: Foreign currency/ NTD thousands

Investee	Investment amount	Ratio of Shareholding (%)	Investment gains/losses recognized in 2024	Main causes for profit or loss	Correc tive action plan
Faith Light International Corporation	257,587 (US\$8,038)	100	32,185	Subsidiary's income recognized by the investment holding company	N/A
VANDEN INTERNATIONAL CO., LTD.	235,763 (US\$7,518)	100	133,338	Subsidiary's income recognized by the investment holding company	N/A
Hao Qiang Precision Machinery (Qingdao) Co., Ltd.	US\$8,000	100	(7,683)	Product gross profit is low	N/A
Strong H Mechanical Technology (Laizhou) Co., Ltd.	US\$40,979	100	172,296	The industrial boom has increased and customer orders have increased, leading to increased profits.	N/A

(III) Investment plans for the coming year:

The Company's investment policies largely depend on operational requirements. All subsidiaries (including 2nd-tier subsidiaries) are expected to maintain sound operation and consistent profit growth in the next year. The Company will devise new investment plans at appropriate timing in the future depending on the prevailing market condition, group business strategy and financial position.

VI. Analysis of risk factors

(I) Impact of interest and exchange rate changes and inflation, and their future countermeasures

1. Interest rate

Interest expenses incurred in 2023 and 2024 amounted to NT\$13,510 thousand and NT\$10,145 thousand, which represented 1.09% and 0.63% of net operating revenues, respectively. Therefore, changes in market interest rates have no significant impact on the company's financial business status.

The company's capital planning to conservative and steady for the principle of working capital allocation first safety. Therefore, they maintain good relations with financial institutions so that they can obtain favorable financing terms when they need funds in the future. If interest rate exhibits high level of volatility in the future, the Company may raise funds from the capital market using alternative tools and choose between fixed or floating rate loans depending on interest rate movements to avoid interest rate risks.

2. Exchange rate

The Company's Chinese operations earn revenues and incur expenses mainly in RMB. The Company may have the need to exchange USD for transactions such as domestic fundraising and payment of dividends to domestic investors, which therefore puts the Company at risk of changes in the USD/TWD exchange rate. The following is a list of possible response measures the Treasury Department may undertake to address such risk:

- A. Treasury personnel will maintain close contact with banking partners to monitor changes in the foreign exchange market, and adjust foreign currency deposit positions as needed to support operations of group subsidiaries, while at the same time minimize impact of exchange rate changes on the Company's profits.
- B. The Company adopts a natural hedge against currency risks (i.e. importing and exporting using USD quotations). It utilizes forward exchange contracts and raises foreign currency debts whenever appropriate to minimize the impacts of exchange rate fluctuation to the Company's profitability.

3. Inflation/deflation

Despite the rapid change of the global economic environment, there are no circumstances as of the publication date of this annual report due to inflation or monetary tightening abovementioned that have material influence on the Company's profit or loss. Going forward, the Company will continue to maintain good relationships with suppliers and customers. We will also stay on top of market price fluctuations and adjust procurement strategies and sales quotations in a timely manner, to mitigate the inflation impact on our profit or loss. \circ

(II) Policies on high-risk and highly leveraged investments, loans to third parties, endorsements / guarantees, and trading of derivatives; describe the main causes of profit or loss incurred and future response measures

The Company has established "Procedure for the Acquisition or Disposal of Assets" and "Endorsement and Guarantee Procedures" to serve as guidance for related activities for all subsidiaries of the group.

(1) Policies on high-risk and highly leveraged investments; describe the main causes of profit or loss incurred and future response measures:

The Company devotes all its focus on core business and does not engage in other risky activities. In addition, it adopts conservative financial practices and refrains from high-leverage investments, and thus has limited risk exposure.

(2) Policies on third-party lending; describe the main causes of profit or loss incurred and future response measures:

The Company did not lend to any third party in the last year and up till the publication date of prospectus. All outstanding loan arrangements with subsidiaries as at December 31,2024 had complied with the Company's policies and posed no impact to the profits or losses presented on the consolidated financial statements.

(3) Policies on guarantees and endorsements; describe the main causes of profit or loss incurred and future response measures:

The Company and 2nd-tier subsidiary - Hao Qiang Precision Machinery (Qingdao) Co., Ltd. that offered intragroup guarantee/endorsement to another 2nd-tier subsidiary - Strong H Mechanical Technology (Laizhou) Co., Ltd. according to "Endorsement and Guarantee Procedures." The purpose of this arrangement was to provide guarantee for loans. The Company has never incurred losses on any guarantee/endorsement offered to another party.

(4) Policies on derivative trading; describe the main causes of profit or loss incurred and future response measures:

The Company trades derivatives primarily to control exchange rate volatility. All transaction activities are carried out according to the "procedure for the Acquisition or Disposal of Assets"

(III) Future R&D plans and expected R&D expenditure

The Company determines its R&D expenses based on new products and status of manufacturing process development. R&D budgets are increased on an annual basis according to new products under development. The purpose is to support development programs and increase the Company's competitiveness in the market. The 2025 R&D expense is expected to be about 5% of sales.

(IV) Changes in important policies and legal environment at home and abroad, and the effect on the financial status and operation of the Company, and Countermeasures:

The Company has not encountered any significant financial or business impact caused by changes in local/foreign policies or laws in the last year and up till the publication date of prospectus. The Company performs all business activities in compliance with domestic/foreign policies and regulations, and closely monitors changes to the domestic/foreign political environment and the latest regulatory developments. Any of the above changes will be consulted with lawyers, accountants etc or evaluated with appropriate response measures planned and implemented in response to the new market environment. The Company has not encountered any significant financial or business impact caused by changes in policies or laws of the Cayman Islands or China in the last year and up till the publication date of prospectus.

(V) The effect of technological(including cyber security risk management) and industrial changes on financial status and operation of the Company, and countermeasures:

Given the ongoing automation and labor replacement within the industry, the Company will closely monitor market trends and evaluate the impacts they have on future operations. In the meantime, more R&D expenses will be spent to improve overall competitiveness.

The Company emphasizes cybersecurity management. A dedicated unit has been established to take charge of cybersecurity management and initiatives. As technology advances, cyber attacks become increasingly frequent. To prevent data leakage due to hacking or computer viruses, the Company has strengthened firewalls and anti-virus software. Server data is backed up periodically. The cybersecurity unit is responsible for planning and implementation of cybersecurity management, including corporate networks and emails control, IT system authorization management, advocacy to enhance employees' awareness in cybersecurity and improve information-related technical and operational procedures, in order to enhance and protect the Company's cybersecurity.

The Company encountered no change in technology(including cyber security risk management) or industry practice that significantly affected its financial or business performance in the last year and by the date of report publication.

(VI) Impact of changes in corporate identity on the Company's crisis management, and countermeasures

The Company upholds integrity and has been taking active steps to enhance internal management and quality assurance since it was first founded. These practices have enabled the Company to build a strong corporate image, gain customers' trust, and avoid the aforementioned crisis.

(VII) Expected benefits and possible risks of merger and acquisition, and countermeasures

There had been no merger or acquisition in the last year and by the date of report publication, hence not applicable.

(VIII) Expected benefits and possible risks of facilities expansion, and countermeasures

The Company will continue to adopt rigorous, conservative and diligent attitude towards the production capacity expansion. With regard to the production capacity utilization rate adjustment, the Company expects to effectively respond to the change of the future economic cycle and product demands.

(IX) Risk from centralized purchasing or selling, and countermeasures

No single supplier or customer accounted for more than 10% of total purchase/sale, hence there was no concentration risk.

(X) Impact and risk associated with large share transfers or changes in shareholdings of directors, supervisors, or shareholders who hold more than 10% of the Company's shares, and countermeasures

No significant transfer of shares by directors, supervisors or major shareholders holding over 10% of the stake in the last year and by the date of report publication. As the third board of directors expired, a full board reelection was held on June 6, 2019. Six directors won a second term, and only one was replaced. There has been no significant change in management.

(XI) Impact and risk associated with changes in management rights, and countermeasures

There has been no change in the Company's management in the last year and up till the publication date of annual report. To support future business development, the Company invited professionals with extensive machinery expertise and finance/accounting background to undertake director and independent director roles, but there has been no significant change in the management team.

(XII) Litigation and non-contentious cases

Major litigations, non-contentious cases, or administrative litigations involving the company or any director, supervisor, President, person-in-charge or major shareholder with more than 10% ownership interest, whether concluded or pending judgment, that are likely to pose significant impact to shareholders or security prices of the company. Disclose the nature of dispute, the amount involved, the date the litigation first started, the key parties involved, and progress as of the publication date of this annual report: As of the date of publication of the annual report, none of this has happened.

(XIII) Other significant risks and response measures

1. Macroeconomic, political, foreign currency and regulatory risks

The Company is registered in the Cayman Islands and operates mainly in China and Taiwan. For this reason, changes in macroeconomic, political and foreign currency risks at the place of registration and place of operation will all affect business performance of the Company.

2. Protection of shareholders' interests

The Company is registered in The Cayman Islands, where the laws (e.g.: The Companies Law) are somewhat different from those of Taiwan. The Company has amended its Articles of Incorporation according to the "Shareholders' Equity Protection Checklist for Foreign Securities Issuer" prepared by Taiwan Stock Exchange Corporation, but investors are still advised to investigate the differences in regulation between the two jurisdictions and how they related to the Company's operations, and consult experts on the legal and investment risks involved.

3.Information security risk

We have hired professional staff to take charge of matters in relation information security prevention and information crisis management; make high-availability backup of data based on the risk level of IT system and infrastructure; assess the operational risk and impacts in terms of finance, regulation, and customers every year; plan, design, and improve appropriate hardware and software equipment and resources; and improve operating procedures to significantly reduce the impact of information security risk. After assessment, no significant operational risk was found in the Company's information security.

VII. Other important disclosures: None.
